## Explanatory Notes

### A1. BASIS OF PREPARATION

These condensed interim financial statements have been prepared in accordance with MFRS 134 *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB") and complies with the International Accounting Standard ("IAS") 34 *Interim Financial Reporting* issued by the International Accounting Standards Board.

These condensed interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements of the Bank for the financial year ended 31 March 2023.

#### A1.1 Significant Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following amendments to published standards:

- Classification of Liabilities as Current or Non-Current (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Definition of Accounting Estimates (Amendments to MFRS 108 *Accounting Policies, Changes in Accounting Estimates and Errors*)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 *Income Taxes*)
- International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 *Income Taxes*)

The adoption of the relevant amendments to published standards did not have any material impact on the financial statements of the Bank. The Bank did not have to change its accounting policies or make retrospective adjustments as a result of adopting these amendments to published standards.

The nature of the amendments to published standards relevant to the Bank are described below:

#### (a) Classification of Liabilities as Current or Non-Current (Amendments to MFRS 101 *Presentation of Financial Statements*)

The amendments clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Liabilities are classified as non-current if the entity has a substantive right to defer settlement for at least 12 months at the end of the reporting period. Classification is unaffected by the expectations or intentions of the entity, as well as events after the reporting date. The adoption of these amendments did not result in any impact to the financial statements of the Bank.

#### (b) Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*)

The amendments require entities to disclose material accounting policies rather than significant accounting policies in the financial statements. Entities are expected to make disclosure of accounting policies specific to the entity and not generic disclosures on MFRS applications.

**A1. BASIS OF PREPARATION (CONT'D.)**

**A1.1 Significant Accounting Policies (Cont'd.)**

**(b) Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*) (Cont'd.)**

An accounting policy is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the users make based on those financial statements. Also, accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements. Immaterial accounting policy information need not be disclosed. The adoption of these amendments did not result in any material impact to the financial statements of the Bank.

**(c) Definition of Accounting Estimates (Amendments to MFRS 108 *Accounting Policies, Changes in Accounting Estimates and Errors*)**

The amendments redefined accounting estimates as "monetary amounts in financial statements that are subject to measurement uncertainty" and provide clarity on how to distinguish changes in accounting policies from changes in accounting estimates.

The amendments further clarified that effects of a change in an input or measurement technique used to develop an accounting estimate (for example, expected credit losses, fair value of an asset or liability, and depreciation for property and equipment) is a change in accounting estimate, if they do not arise from prior period errors. The adoption of these amendments did not result in any material impact to the financial statements of the Bank.

**(d) Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 *Income Taxes*)**

The amendments clarified that the initial exemption rule from recognising deferred taxes does not apply to transactions where both an asset and a liability are recognised at the same time resulting in equal amounts of taxable and deductible temporary differences. This essentially means that lessees would not be able to apply the initial exemption rule in MFRS 112 for the assets and liabilities arising from leases. The adoption of these amendments did not result in any material impact to the financial statements of the Bank.

**(e) International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 *Income Taxes*)**

The amendments introduced a mandatory temporary exception to the accounting for deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules. The adoption of these amendments did not result in any impact to the financial statements of the Bank.

**A1. BASIS OF PREPARATION (CONT'D.)**

**A1.1 Significant Accounting Policies (Cont'd.)**

**Standards issued but not yet effective**

Description	Effective for annual periods beginning on or after
- Lease Liability in a Sale and Leaseback (Amendments to MFRS 16 <i>Leases</i> )	1 January 2024
- Non-current Liabilities with Covenants (Amendments to MFRS 101 <i>Presentation of Financial Statements</i> )	1 January 2024
- Supplier Finance Arrangements (Amendments to MFRS 107 <i>Statement of Cash Flows</i> and MFRS 7 <i>Financial Instruments: Disclosures</i> )	1 January 2024
- Lack of Exchangeability (Amendments to MFRS 121 <i>The Effects of Changes in Foreign Exchange Rates</i> )	1 January 2025
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 10 <i>Consolidated Financial Statements</i> and MFRS 128 <i>Investments in Associates and Joint Ventures</i> )	To be determined by MASB

The nature of the amendments to published standards that are issued and relevant to the Bank but not yet effective are described below. The Bank is currently assessing the financial effects of their adoption.

**(a)  Amendments to published standards effective for financial year ending 31 March 2025**

**Lease Liability in a Sale and Leaseback (Amendments to MFRS 16 *Leases*)**

The amendments clarified that, in subsequently measuring the lease liability, seller-lessee determines lease payments and revised leased payments in a way that does not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee.

**Non-current Liabilities with Covenants (Amendments to MFRS 101 *Presentation of Financial Statements*)**

The amendments clarified that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before reporting date would affect classification as current or non-current, even if the covenant is only assessed after the entity's reporting date.

**Supplier Finance Arrangements (Amendments to MFRS 107 *Statement of Cash Flows* and MFRS 7 *Financial Instruments: Disclosures*)**

The amendments introduced new disclosure requirements for supplier finance arrangements which include terms and conditions of supplier financing arrangements, the amounts of the liabilities that are the subject of such agreements, the range of payment due dates and information on liquidity risk.

**A1. BASIS OF PREPARATION (CONT'D.)**

**A1.1 Significant Accounting Policies (Cont'd.)**

**Standards issued but not yet effective (Cont'd.)**

**(b) Amendments to published standards effective for financial year ending 31 March 2026**

**Lack of Exchangeability (Amendments to MFRS 121 *The Effects of Changes in Foreign Exchange Rates*)**

The amendments clarified when a currency is exchangeable into another currency and how an entity estimates a spot rate when a currency lacks exchangeability. New disclosure requirements include the nature and financial impacts of the currency not being exchangeable, spot exchange rate used, estimation process and risks to the entity when the currency is not exchangeable.

**A1.2 Significant Accounting judgements, Estimates and Assumptions**

The preparation of the condensed interim financial statements in accordance with MFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of revenue, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Judgements, estimates and assumptions are continually evaluated and are based on the past experience, reasonable expectations of future events and other factors. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Bank's accounting policies, the significant judgements, estimates and assumptions made by management were the same as those applied to the annual financial statements for the financial year ended 31 March 2023.

**A2. AUDIT QUALIFICATION**

The auditors' report on the audited annual financial statements for the financial year ended 31 March 2023 was not qualified.

**A3. SEASONALITY OR CYCLICALITY OF OPERATIONS**

The operations of the Bank were not materially affected by any seasonal or cyclical fluctuation in the current financial quarter and period.

**A4. UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE OR INCIDENCE**

There were no unusual items during the current financial quarter and period affecting the financial results of the Bank.

#### **A5. CHANGES IN ESTIMATES**

There was no material change in estimates of amounts reported in prior financial years that have a material effect on the financial quarter and period.

#### **A6. ISSUANCE, REPURCHASE AND REPAYMENT OF DEBT AND EQUITY SECURITIES**

##### **Issuance of Sukuk**

On 27 June 2023, the Bank issued Tranche 11 with nominal value of RM500.0 million under its RM3.0 billion Subordinated Sukuk Murabahah ("Sukuk Murabahah") programme. The profit rate of this tranche is at 4.53% per annum and have a tenure of 10 years (non-callable 5 years).

##### **Repayment of Sukuk**

On 18 October 2023, the Bank redeemed Tranche 7 of the Sukuk Murabahah on its first call date with nominal value amounting to RM500.0 million.

Other than disclosed above, there were no new issuance of debt and equity securities, share buy-backs, share cancellations, shares held as treasury shares nor resale of treasury shares and repayment of debt securities by the Bank during the financial quarter and period.

#### **A7. DIVIDENDS**

During the financial period, an interim single-tier dividend of 13.30 sen per ordinary share on 494,368,541 ordinary shares amounting to approximately RM65,751,016 in respect of current financial period was paid on 18 December 2023.

The RA is a contract based on the Shariah concept of Mudarabah between two parties, that is, capital provider and entrepreneur to finance a business venture where the business venture is managed solely by the Bank as the entrepreneur. The profit of the business venture is shared between both parties based on a pre-agreed ratio. The capital provider for the RA contracts is AmBank, a related company.

As at 31 December 2023, ECL allowance for the investment asset borne by AmBank amounted to RM2.1 million (31 March 2023: RM1.3 million).

As at 31 December 2023, the remaining tenure of the RA contracts is for a period of 3 to 6 years (31 March 2023: 4 to 7 years).

### **A30. BUSINESS SEGMENT ANALYSIS**

Segment information is presented in respect of the Bank's business segments. The business segment information is prepared based on internal management reports, which are regularly reviewed by the Chief Operating Decision Maker in order to allocate resources to a segment and to assess its performance.

The Bank comprises the following main business segments:

(a) Retail Banking

Retail Banking continues to focus on building mass affluent, affluent and small business customers. Retail Banking offers products and financial solutions which includes auto finance, mortgages, personal financing, credit cards, small business financing, priority banking services, wealth management, remittance services and deposits.

(b) Business Banking

Business Banking ("BB") focuses on the Small, Medium and Large Enterprises segment, which comprises Enterprise Banking and Commercial Banking. Solutions offered to Enterprise Banking customers encompass Capital Expenditure ("CAPEX") financing, Working Capital financing and Cash Management and while Commercial Banking offers the same suite of products, it also provides more sophisticated structures such as Contract Financing, Development Financing and Project Financing.

(c) Wholesale Banking

Wholesale Banking comprises Corporate Banking, Transaction Banking and Group Treasury and Markets:

- (i) Corporate Banking offers a full range of products and services, including corporate lending, investment banking advisory, trade finance, offshore banking and cash management solutions to wholesale banking clients;
- (ii) Transaction Banking delivers tailor-made digital and cash management solutions, as well as trade financing and remittance services, to corporate and SME clients;
- (iii) Group Treasury and Markets manages liquidity for the banking group and offers financial market and hedging solutions across all asset classes to a broad range of clients. The sales and trading activities cover fixed income, interest rates, foreign exchange, money market, equity derivatives, commodities and other derivatives.

**A30. BUSINESS SEGMENT ANALYSIS (CONT'D.)**

The Bank comprises the following main business segments (cont'd.):

(d) Investment Banking

Investment Banking offer Islamic advisory services and a wide range of Shariah-compliant financial and investment solutions that include sukuk origination, Islamic equity or equity related capital markets offerings, Islamic structured finance.

(e) Group Funding and Others

Group Funding and Others comprise activities to maintain the liquidity of the Bank as well as support operations of its main business units and non-core operations of the Bank.

Measurement of Segment Performance

The segment performance is measured on income, expenses and profit basis. These are shown after allocation of certain centralised costs, funding income and expenses directly associated with each segment. Transactions between segments are recorded within the segment as if they are third party transactions and are eliminated on aggregation.

Note:

- (i) The Chief Operating Decision Maker relies primarily on the net finance income information to assess the performance of, and to make decisions about resources to be allocated to these operating segments.
- (ii) The financial information by geographical segment is not presented as the Bank's activities are principally conducted in Malaysia.
- (iii) The comparatives have been restated with current business realignment.

**A31. PERFORMANCE REVIEW FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2023**

The Bank reported a lower profit before zakat and taxation of RM339.4 million for the financial period ended 31 December 2023 compared to the corresponding period ended 31 December 2022 of RM535.9 million. The lower profit was mainly due to higher other operating expenses of RM116.8 million, lower net finance income of RM72.5 million and higher net allowance for impairment on financing and advances of RM49.9 million, offset by higher other operating income of RM24.8 million, writeback of ECL on financing commitments and financial guarantee contracts of RM14.7 million and lower ECL of financial investments of RM3.2 million.

In the opinion of the directors, the results of operations of the Bank for the financial period have not been substantially affected by any item, transaction or event of a material and unusual nature.

**A32. PROSPECTS FOR THE FINANCIAL YEAR ENDING 31 MARCH 2024**

During the final quarter of 2023, Malaysia's economy expanded by 3.0% year-on-year ("yoy") at a slower pace compared to the previous quarter's 3.3%. This translates into a full year 2023 growth of 3.7% yoy, falling short of the Department of Statistics Malaysia ("DOSM")'s advance estimate of 3.4% yoy quarterly growth and 3.8% yoy annual growth. The full-year performance also came in lower than the government's target of 4.0% to 5.0%. The slower growth was a result of a high base effect from 2022, exacerbated by the soft external demand among Malaysia's major trading partners. Nonetheless, sectoral-wise, we saw that the services sector continued to expand at a healthy pace of 4.2% yoy in that quarter. Besides, the mining & quarrying sector posted decent growth of 3.8% yoy, recovering from a 0.1% yoy decline in the prior quarter.

The prospects for global economic conditions in 2024 appear to be mixed. Despite the prolonged high interest rate environment, the International Monetary Fund expects the global economy to grow by 3.1% (projection revised higher from 2.9%), which is the same as 2023's estimate. Globally, the outlook on the manufacturing sector has slightly improved as the latest Global Manufacturing Purchasing Manager's Index ("PMI") has reached a growth threshold of 50, the first time it has done that since August 2022. Furthermore, inflation in most major economies continues to show a downward trend after it peaked in 2022. In the United States, the Federal Reserve's ("Fed") fight against inflation seems well underway as inflation and core inflation are receding, albeit remaining elevated and above the central bank's target of 2%. Conversely, the World Bank anticipates global growth to slow to 2.4% in 2024 from an estimated 2.6% in 2023 as concerns regarding the full effects of unprecedentedly tight monetary policy on local economies and slump in global trade remain. Nonetheless, we continue to expect the Federal Funds Rate to remain high at the moment. Similarly, rates are likely to remain high in the United Kingdom and the Eurozone, with signs of softer economic activity amid a tight monetary environment already becoming apparent in that economy.

We anticipate continued support for growth from domestic demand and recovery in the external trade for 2024. Despite the already moderating private consumption, tourism and related sectors are still improving and have yet to reach their pre-pandemic levels. Furthermore, exports may recover in 2024 as the global technology cycle may have bottomed out and is underway for robust growth. Market indicators suggest that the semiconductor industry reached its low point at the end of first half year 2023 and has since embarked on a path to recovery, offering positive prospects for 2024. Malaysia's leading index and S&P Manufacturing PMI are slowly on an uptrend. Overall, Malaysia's economy is anticipated to grow by 4.5% in 2024.

**A32. PROSPECTS FOR THE FINANCIAL YEAR ENDING 31 MARCH 2024 (CONT'D.)**

In Malaysia's banking industry, the overall outstanding financing expanded by 5.3% in December 2023. While the non-household segment financing expanded slower at 4.5%, household financing remained healthy at 5.8%. As the economy is expected to moderate in 2024, we expect relatively subdued financing growth in the range of 4.0% to 5.0% for the year. The overall banking system remains healthy, underpinned by strong liquidity. This is reflected by the liquidity coverage ratio, registering at 160.9% in December 2023 (November 2023: 149.7%). The funding profile was also well-diversified, with December 2023's financing-to-fund ratio and financing-to-fund-and-equity ratio at 81.9% and 71.6%, respectively (November 2023: 82.4% and 72.0%, respectively).

On the Overnight Policy Rate ("OPR"), with core inflation being modest so far due to slower hiring activities and the lag effect from the 125 bps cumulative rate hikes, we expect the OPR to stay at 3.00% until the end of 2024. Inflation is expected to be between 2.5% and 3.5% in 2024. Nevertheless, the upside risk to inflation is expected to come from subsidy rationalisation affecting fuel, which is expected to be implemented as early as second quarter of 2024. Should the situation later translate into persistently high inflation, or private consumption continues to moderate in the first half of 2024, then there is a case to revisit our current OPR call.

AMMB Group demonstrated financial resilience in its third quarter of financial year 2024, boosted by the one-off tax credit. The AMMB Group also benefitted from the Malaysian economy's continued growth in the last quarter of 2023, which was due to the continued expansion in household spending, stronger growth of inbound tourism and higher investment growth.

The AMMB Group maintains an optimistic stance on its financial year 2024 prospects, supported by resilient domestic demand and the expected recovery in external demand. In addition, pragmatic implementation of Budget 2024 will provide additional impetus to economic activity.

The AMMB Group remains committed in ensuring its financial year 2021 to financial year 2024 Focus 8 strategy ends on a high note by focusing on driving sustainable revenue growth, maintaining cost discipline, improving asset quality, ensuring healthy liquidity position and strengthening capital levels further.

The AMMB Group will also focus efforts on three primary growth accelerators to remain competitive with its peers: SME empowerment, advancement of Environmental, Social and Governance ("ESG") initiatives and digital innovation to create sustainable value for shareholders and stakeholders.

**A33. VALUATION OF PROPERTY AND EQUIPMENT**

The Bank's property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses (if any).

**A34. SIGNIFICANT EVENT DURING THE FINANCIAL PERIOD**

There was no significant event during the current financial quarter.

### A35. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Bank makes various commitments and incurs certain contingent liabilities with legal recourse to its customers. No material losses are anticipated as a result of these transactions. The commitments and contingencies are not secured against the Bank's assets.

The principal amounts of the commitments and contingencies of the Bank and notional contracted amounts of derivatives are as follows:

### **A36. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS**

#### **Determination of fair value and fair value hierarchy**

The Bank uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 : other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3 : techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities measured at fair value that are recognised on a recurring basis, the Bank determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial assets and liabilities measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions are assets and liabilities for which pricing is obtained via pricing services, but where prices have not been determined in an active market, financial assets with fair values based on broker quotes, investments in private equity funds with fair values obtained via fund managers and assets that are valued using the Bank's own models whereby the majority of assumptions are market observable.

Non market observable inputs means that fair values are determined, in whole or in part, using a valuation technique (model) based on assumptions that are neither supported by prices from observable current market transactions in the same instrument, nor are they based on available market data. The main asset classes in this category are unlisted equity investments and debt instruments. Valuation techniques are used to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. However, the fair value measurement objective remains the same, that is, an exit price from the perspective of the Bank. Therefore, unobservable inputs reflect the Bank's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). These inputs are developed based on the best information available, which might include the Bank's own data, as well as financial information of the counterparties. The Bank does not have any financial assets or liabilities measured at level 3 as at the end of the reporting period and 31 March 2023.

**A37. CAPITAL ADEQUACY**

(a) The capital adequacy ratios of the Bank are as follows:

	<b>31 December 2023</b>	<b>31 March 2023</b>
<b>Under transitional arrangement (Note(i))</b>		
Common Equity Tier 1 ("CET 1") Capital Ratio	12.829%	12.616%
Tier 1 Capital ratio	12.829%	12.616%
Total Capital ratio	17.505%	17.127%

Notes:

- (i) Pursuant to the revised BNM policy document, Capital Adequacy Framework for Islamic Banks (Capital Components) issued on 9 December 2020, the capital ratios of the Bank had been computed applying transitional arrangement on provision for ECL. Had the transitional arrangement not been applied, the capital ratios of the Bank as at 31 December 2023 and 31 March 2023 are as follow:

	<b>31 December 2023</b>	<b>31 March 2023</b>
Common Equity Tier 1 Capital Ratio	12.379%	12.026%
Tier 1 Capital Ratio	12.379%	12.026%
Total Capital Ratio	17.076%	16.801%

- (ii) Pursuant to BNM's Capital Adequacy Framework for Islamic Banks (Capital Components), financial institutions are required to maintain minimum Common Equity Tier 1 ("CET1") Capital Ratio of 4.5%, Tier 1 Capital Ratio of 6.0% and Total Capital Ratio of 8.0% at all times. The Bank is also required to maintain the following capital buffers:

- (a) a Capital Conservation Buffer ("CCB") of 2.5%;
- (b) a Countercyclical Capital Buffer ("CCyB") determined as the weighted-average of the prevailing CCyB rates applied in the jurisdictions in which the Bank has credit exposures; and
- (c) a Higher Loss Absorbency ("HLA") requirement for a financial institution that is designated as a domestic systemically important bank ("D-SIB").

**A37. CAPITAL ADEQUACY (CONT'D.)**
