The unaudited condensed interim financial statements should be read in conjunction with the audited annual financial statements of the Group and the Company for the financial year ended 31 March 2023.

EXPLANATORY NOTES :

A1. BASIS OF PREPARATION

These condensed interim financial statements have been prepared in accordance with MFRS 134 *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB") and paragraph 9.22 of the Listing Requirements of Bursa Malaysia. These financial statements also comply with IAS 34 *Interim Financial Reporting* issued by the International Accounting Standards Board.

These condensed interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements of the Group and the Company for the financial year ended 31 March 2023 which are available upon request from the Company's registered office at Level 22, Bangunan AmBank Group, No. 55, Jalan Raja Chulan, 50200 Kuala Lumpur.

The condensed interim financial statements incorporate those activities relating to Islamic banking which have been undertaken by the Group.

A1.1 Significant Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following amendments to published standards:

- MFRS 17 *Insurance Contracts*
- Classification of Liabilities as Current or Non-Current (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*)
Definition of Accounting Estimates (Amendments to MFRS 108 *Accounting Policies, Changes in Accounting Estimates and Errors*)
- Initial Application of MFRS 17 and MFRS 9 - Comparative Information (Amendment to MFRS 17 *Insurance Contracts*)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 *Income Taxes*)
- International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 *Income Taxes*)

The adoption of these amendments to published standards did not have any material impact on the financial statements of the Group and of the Company except for the adoption of MFRS 17 as disclosed below. The Group and the Company did not have to change its accounting policies or make retrospective adjustments as a result of adopting the other amendments to published standards.

The nature of the amendments to published standards relevant to the Group and the Company are described below:

MFRS 17 *Insurance Contracts* and Initial Application of MFRS 17 and MFRS 9 - Comparative Information (Amendment to MFRS 17 *Insurance Contracts*)

MFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure which replaced MFRS 4 *Insurance Contracts*. Comparative information have been restated, applying the transitional provisions of MFRS 17. The impact arising from the adoption of MFRS 17 are as follows:

(i) Recognition and measurement

MFRS 17 requires the Group to identify portfolios of insurance/takaful contracts and reinsurance/retakaful contracts, which comprise contracts subject to similar risks and are managed together. Insurance/takaful contracts are divided into:

- (a) a group of contracts that are onerous at initial recognition, if any;
- (b) a group of contracts that at initial recognition have no significant possibility of becoming onerous subsequently, if any; and
- (c) a group of the remaining contracts in the portfolio, if any.

Embedded derivatives and distinct investment and service components are unbundled and accounted for separately in accordance with the related MFRSs.

A1. BASIS OF PREPARATION (CONT'D.)

A1.1 Significant Accounting Policies (Cont'd.)

The nature of the amendments to published standards relevant to the Group and the Company are described below:
(Cont'd.)

MFRS 17 Insurance Contracts and Initial Application of MFRS 17 and MFRS 9 - Comparative Information (Amendment to MFRS 17 Insurance Contracts) (Cont'd.)

(i) Recognition and measurement (Cont'd.)

The Group recognises insurance/takaful acquisition cash flows paid as an asset before the related group of insurance/takaful contracts are recognised. The asset for insurance/takaful acquisition cash flows are derecognised when the insurance/takaful acquisition cash flows are included in the measurement of the related group of insurance/takaful contracts.

The Group applies the following measurement models in measuring insurance/takaful contracts:

(a) General measurement model

A general measurement model, where estimates are remeasured in each reporting period. The measurement is based on the building blocks of discounted, probability-weighted fulfilment cash flows, a risk adjustment and a contractual service margin ("CSM") representing the unearned profit of the contract.

(b) Premium allocation approach

A simplified premium allocation approach is permitted for the liability for remaining coverage if it provides a measurement that is not materially different from the general model or if the coverage period is one year or less. However, claims incurred will need to be measured based on the building blocks of discounted, risk-adjusted, probability-weighted cash flows.

(c) Variable-fee approach

For contracts with direct participation features.

Insurance revenue which depicts the provision of services arising from the group of insurance/takaful contracts at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services are recognised in profit or loss. Insurance service expenses are recognised in profit or loss when incurred. The resulting insurance service result is distinguished from the insurance finance income and expense.

If a group of contracts is expected to be onerous over the remaining coverage period, the Group recognises the loss immediately. A loss component of the liability for remaining coverage for such onerous group depicting the losses recognised is established by the Group.

(ii) Transition

A full retrospective application is required. However, an entity is permitted to choose between a modified retrospective approach and the fair value approach if full retrospective application is impracticable. AmMetLife Insurance Berhad and AmMetLife Takaful Berhad, the joint ventures of the Group that first applies MFRS 17 and MFRS 9 at the same time are permitted to apply a classification overlay on the comparative information about a financial asset as if the classification and measurement requirements of MFRS 9 had been applied to that financial asset before to overcome potential accounting mismatches.

The financial impacts of the adoption of MFRS 17 on the financial statements of the Group are as disclosed in Note A34.

Classification of Liabilities as Current or Non-Current (Amendments to MFRS 101 Presentation of Financial Statements)

The amendments clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Liabilities are classified as non-current if the entity has a substantive right to defer settlement for at least 12 months at the end of the reporting period. Classification is unaffected by the expectations or intentions of the entity, as well as events after the reporting date. The adoption of these amendments did not result in any impact to the financial statements of the Group and the Company.

A1. BASIS OF PREPARATION (CONT'D.)

A1.1 Significant Accounting Policies (Cont'd.)

The nature of the amendments to published standards relevant to the Group and the Company are described below: (Cont'd.)

Disclosure of Accounting Policies (Amendments to MFRS 101 Presentation of Financial Statements)

The amendments require entities to disclose material accounting policies rather than significant accounting policies in the financial statements. Entities are expected to make disclosure of accounting policies specific to the entity and not generic disclosures on MFRS applications.

An accounting policy is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the users make based on those financial statements. Also, accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements. Immaterial accounting policy information need not be disclosed. The adoption of these amendments did not result in any material impact to the financial statements of the Group and the Company.

Definition of Accounting Estimates (Amendments to MFRS 108 Accounting Policies, Changes in Accounting Estimates and Errors)

The amendments redefined accounting estimates as "monetary amounts in financial statements that are subject to measurement uncertainty" and provide clarity on how to distinguish changes in accounting policies from changes in accounting estimates.

The amendments further clarified that effects of a change in an input or measurement technique used to develop an accounting estimate (for example, expected credit losses, fair value of an asset or liability, and depreciation for property and equipment) is a change in accounting estimate, if they do not arise from prior period errors. The adoption of these amendments did not result in any material impact to the financial statements of the Group and the Company.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 Income Taxes)

The amendments clarified that the initial exemption rule from recognising deferred taxes does not apply to transactions where both an asset and a liability are recognised at the same time resulting in equal amounts of taxable and deductible temporary differences. This essentially means that lessees would not be able to apply the initial exemption rule in MFRS 112 for the assets and liabilities arising from leases. The adoption of these amendments did not result in any material impact to the financial statements of the Group and the Company.

International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 Income Taxes)

The amendments introduced a mandatory temporary exception to the accounting for deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules. The adoption of these amendments did not result in any impact to the financial statements of the Group and the Company as the Group's activities are principally conducted in Malaysia.

A1. BASIS OF PREPARATION (CONT'D.)

A1.1 Significant Accounting Policies (Cont'd.)

Standards issued but not yet effective (Cont'd.)

The nature of the amendments to published standards that are issued but not yet effective are described below. The Group and the Company are currently assessing the financial effects of their adoption.

(a) Amendments to published standards effective for financial year ending 31 March 2025

Lease Liability in a Sale and Leaseback (Amendments to MFRS 16 Leases)

The amendments clarified that, in subsequently measuring the lease liability, seller-lessee determines lease payments and revised leased payments in a way that does not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee.

Non-current Liabilities with Covenants (Amendments to MFRS 101 Presentation of Financial Statements)

The amendments clarified that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before reporting date would affect classification as current or non-current, even if the covenant is only assessed after the entity's reporting date.

Supplier Finance Arrangements (Amendments to MFRS 107 Statement of Cash Flows and MFRS 7 Financial Instruments: Disclosures)

The amendments introduced new disclosure requirements for supplier finance arrangements which include terms and conditions of supplier financing arrangements, the amounts of the liabilities that are the subject of such agreements, the range of payment due dates and information on liquidity risk.

(b) Standard effective on a date to be determined by MASB

Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 10 Consolidated Financial Statements and MFRS 128 Investments in Associates and Joint Ventures)

The amendments clarify that:

- gains and losses resulting from transactions involving assets that do not constitute a business, between entity and its associate or joint venture are recognised in the entity's financial statements only to the extent of unrelated investors' interests in the associate or joint venture; and
- gains and losses resulting from transactions involving the sale or contribution to an associate of a joint venture of assets that constitute a business is recognised in full.

A1.2 Significant Accounting Judgements, Estimates and Assumptions

The preparation of the condensed interim financial statements in accordance with MFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of revenue, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Judgements, estimates and assumptions are continually evaluated and are based on the past experience, reasonable expectations of future events and other factors. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Group's and the Company's accounting policies, the significant judgements, estimates and assumptions made by management were the same as those applied to the annual financial statements for the financial year ended 31 March 2023 except for estimated loss on disposal of a subsidiary as disclosed in Note A27.

A2. AUDIT QUALIFICATION

There was no audit qualification in the annual financial statements for the financial year ended 31 March 2023.

A3. SEASONALITY OR CYCLICALITY OF OPERATIONS

The operations of the Group and the Company are not materially affected by any seasonal or cyclical fluctuation in the current financial quarter.

A4. UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE OR INCIDENCE

There were no unusual items during the current financial quarter.

A5. CHANGES IN ESTIMATES

There was no material change in estimates of amounts reported in the prior financial years that have a material effect on the financial quarter ended 30 June 2023 other than the impact of adoption of MFRS 17 as disclosed in Note A34.

A6. ISSUANCE, REPURCHASE AND REPAYMENT OF DEBT AND EQUITY SECURITIES

(i) Share buy-back

During the current financial quarter, the Company bought back from the open market, a total of 561,950 ordinary shares listed on the Main Market of Bursa Malaysia Securities Berhad at an average buy-back price of RM3.61 per share. The total consideration paid for the share buy-back including transaction costs was approximately RM2,029,247 and was financed by internally generated funds. The shares bought back are held as treasury shares in accordance with Section 127(4)(b) of the Companies Act 2016.

(ii) Issuance of debt securities

(1) On 27 June 2023, AmBank (M) Berhad ("AmBank") issued Tranche 11 with nominal value of RM500.0 million under its RM4.0 billion Subordinated Notes programme. The interest rate of this tranche is at 4.59% per annum, payable semi-annually with a tenure of 10 years (callable in the 5th years).

(2) On 27 June 2023, AmBank Islamic Berhad ("AmBank Islamic") issued Tranche 11 with nominal value of RM500.0 million under its RM3.0 billion Subordinated Sukuk Murabahah ("Sukuk Murabahah") programme. The profit rate of this tranche is at 4.53% per annum, payable semi-annually with a tenure of 10 years (non-callable 5 years).

(iii) Redemption of debt securities

On 30 June 2023, AmBank redeemed Tranche 8 - Series 1 of its Senior Notes with nominal value of RM150.0 million issued under its RM7.0 billion nominal value Senior Notes programme.

Other than as disclosed above, there were no issuance of debt and equity securities, repayment of debt securities, new shares issuance, share buy-backs, share cancellations nor resale of treasury shares by the Group and the Company during the financial quarter.

A25. BUSINESS SEGMENT ANALYSIS

Segment information is presented in respect of the Group's business segments. The business segment information is prepared based on internal management reports, which are regularly reviewed by the Chief Operating Decision Maker in order to allocate resources to a segment and to assess its performance. The Group comprises the following main business segments:

- (a) **Retail Banking**
Retail Banking provides everyday banking solutions to individuals and small and medium-sized enterprises ("SMEs") customers, covering both conventional and Islamic financial products and services which includes auto finance, mortgage, personal loan, credit cards, small business loans, wealth management, bancassurance, remittance, merchant business solutions and deposits.
- (b) **Business Banking**
Business Banking ("BB") focuses on the Small, Medium and Large Enterprises segment, which comprises Enterprise Banking and Commercial Banking. Solutions offered to Enterprise Banking customers encompass Capital Expenditure ("CAPEX") financing, Working Capital financing and Cash Management and while Commercial Banking offers the same suite of products, it also provides more sophisticated structures such as Contract Financing, Development Loans and Project Financing.
- (c) **Wholesale Banking**
Wholesale Banking comprises Corporate Banking, Transaction Banking and Group Treasury and Markets.
 - (i) **Corporate and Transaction Banking**
Corporate Banking offers a full range of products and services, including corporate lending, investment banking advisory, trade finance, offshore banking and cash management solutions to wholesale banking clients.

Transaction Banking delivers tailor-made digital and cash management solutions, as well as trade financing and remittance services, to corporate and SME clients.
 - (ii) **Group Treasury and Markets**
Group Treasury and Markets manages liquidity for the banking group and offers financial market and hedging solutions across all asset classes to a broad range of clients. The sales and trading activities cover fixed income, interest rates, foreign exchange, money market, equity derivatives, commodities and other derivatives.
- (d) **Investment Banking**
Investment Banking provides a full range of integrated solutions and services, which include corporate finance M&A advisory, equity and debt capital markets, private banking and stockbroking services.
- (e) **Fund Management**
Fund Management manages a broad range of investment mandates and unit trust funds across the risk-return spectrum for individuals, corporates and institutions, and provides fund distribution support services for institutional distributors. Fund Management also manages Private Retirement Schemes and Exchange Traded Funds.
- (f) **Insurance, from continuing operations**
Insurance segment offers a broad range of general insurance products, namely motor, personal accident, property and household through our associates with effective August 2022. It also offers life insurance and takaful products namely wealth protection/savings, health and medical protection and family takaful solutions provided through our joint venture operations.
- (g) **Group Funding and Others**
Group Funding and Others comprises activities to maintain the liquidity of the Group as well as support operations of its main business units and non-core operations of the Group.
- (h) **Insurance, from discontinued operation**
Insurance segment offers a broad range of general insurance products, namely motor, personal accident, property and household.

Measurement of segment performance

The segment performance is measured on income, expenses and profit basis. These are shown after allocation of certain centralised cost, funding income and expenses directly associated with each segment. Transactions between segments are recorded within the segment as if they are third party transactions and are eliminated on consolidation under Group Funding and Others.

Notes:

- (i) The Chief Operating Decision Maker relies primarily on the net interest income information to assess the performance of, and to make decisions about resources to be allocated to these operating segments.
- (ii) The financial information by geographical segment is not presented as the Group's activities are principally conducted in Malaysia.
- (iii) The comparatives have been restated with current business realignment.

A27. SIGNIFICANT EVENT DURING THE REPORTING YEAR

Disposal of AmGeneral Insurance Berhad to Liberty Insurance Berhad

Following from the completion of disposal of AmGeneral Insurance Berhad ("AGIB") to Liberty Insurance Berhad ("LIB") on 28 July 2022, both AGIB and LIB entered into a supplemental agreement dated 30 June 2023 to finalise adjustment to the sales consideration. The finalised sales consideration amounted to RM2,347.9 million, satisfied via a combination of cash and shares in LIB.

As a result of the finalisation of sales consideration, the overall loss from the disposal of AGIB was revised from RM53.9 million recognised in FY2023 to loss of RM2.8 million as shown below.

A28. CHANGES IN THE COMPOSITION OF THE GROUP AND THE COMPANY

There were no material changes in the composition of the Group and the Company for the current financial quarter.

A29. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the banking subsidiaries of the Company make various commitments and incur certain contingent liabilities with legal recourse to their customers. No material losses are anticipated as a result of these transactions other than those where provision had been made in the financial statements. The commitments and contingencies are not secured against the Group's assets.

As at the reporting date, the principal amounts of commitments and contingencies and notional contracted amounts of derivatives are as follows:

A31. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

Determination of fair value and fair value hierarchy

The Group and the Company measure fair value using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities measured at fair value that are recognised on a recurring basis, the Group and the Company determine whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial assets and liabilities measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions are assets and liabilities for which pricing is obtained via pricing services, but where prices have not been determined in an active market, financial assets with fair values based on broker quotes, investments in private equity funds with fair values obtained via fund managers and assets that are valued using the Group's own models whereby the majority of assumptions are market observable.

Non market observable inputs means that fair values are determined, in whole or in part, using a valuation technique (model) based on assumptions that are neither supported by prices from observable current market transactions in the same instrument, nor are they based on available market data. The main asset classes in this category are unlisted equity investments and debt instruments. Valuation techniques are used to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. However, the fair value measurement objective remains the same, that is, an exit price from the perspective of the Group and the Company. Therefore, unobservable inputs reflect the Group's and the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). These inputs are developed based on the best information available, which might include the Group's and the Company's own data, as well as financial information of the counterparties. Unquoted equity investments at FVOCI are revalued using adjusted net assets method.

About 1.9% (31 March 2023: 1.7%) of the Group's total financial assets recorded at fair value, are based on estimates and recorded as Level 3 investments. Where estimates are used, these are based on a combination of independent third-party evidence and internally developed models, calibrated to market observable data where possible. While such valuations are sensitive to estimates, it is believed that changing one or more of the assumptions to reasonably possible alternative assumptions would not change the fair value significantly.

The following tables show the Group's and the Company's financial instruments that are measured at fair value at the reporting date analysed by levels within the fair value hierarchy.

A31. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS (CONT'D.)

Movements in Level 3 financial instruments measured at fair value

The level of the fair value hierarchy of financial instruments is determined at the beginning of each reporting period. The following table shows a reconciliation of the opening and closing amounts of Level 3 financial assets which are recorded at fair value at the reporting date.

Group	Financial assets at FVTPL RM'000	Financial investments at FVOCI RM'000	Total RM'000
30.06.2023			
Balance at beginning of the financial period	33	682,858	682,891
Total gains recognised in other comprehensive income under fair value reserve	-	38,186	38,186
Balance at end of the financial period	<u>33</u>	<u>721,044</u>	<u>721,077</u>
31.03.2023			
Balance at beginning of the financial year	31	675,089	675,120
Gain on revaluation of financial assets at FVTPL taken up in statement of profit or loss	2	-	2
Total gains recognised in other comprehensive income under fair value reserve	-	7,769	7,769
Balance at end of the financial year	<u>33</u>	<u>682,858</u>	<u>682,891</u>

There were no transfers between Level 2 and Level 3 during the current financial period and previous financial year for the Group.

Total gains or losses included in the statement of profit or loss and statement of comprehensive income for financial instruments held at the end of the reporting date:

Group	30.06.2023 RM'000	31.03.2023 RM'000
Financial assets at FVTPL:		
Total gain included in:		
- investment and trading income in statement of profit or loss	-	2
Financial investments at FVOCI:		
Total gains included in:		
- fair value reserve in statement of comprehensive income	38,186	7,769

Impact on fair value of Level 3 financial instruments measured at fair value arising from changes to key assumptions.

Changing one or more of the inputs to reasonable alternative assumptions would not change the value significantly for the financial assets in Level 3 of the fair value hierarchy.

A32. CAPITAL ADEQUACY (CONT'D.)

- (2) The Company, being a financial holding company ("FHC") i.e. a financial holding company approved pursuant to Section 112(3) of the FSA or Section 124(3) of the IFSA and holds investment directly or indirectly in corporations that are engaged predominantly in banking business or Islamic banking business, has complied with BNM guidelines on minimum capital adequacy ratios and capital buffer requirements at the consolidated level effective 1 January 2019.
- (3) Pursuant to BNM's Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework for Islamic Banks (Capital Components), financial institution is required to maintain minimum CET1 Capital Ratio of 4.5%, Tier 1 Capital Ratio of 6.0% and Total Capital Ratio of 8.0% at all times. In addition, a financial institution is also required to maintain capital buffers which comprise the sum of the following:
- a Capital Conservation Buffer ("CCB") of 2.5%;
 - a Countercyclical Capital Buffer ("CCyB") determined as the weighted-average of the prevailing CCyB rates applied in the jurisdictions in which the financial institution has credit exposures. BNM will communicate any decision on the CCyB rate by up to 12 months before the date from which the rate applies; and
 - a Higher Loss Absorbency ("HLA") requirement for a financial institution that is designated as a domestic systemically important bank ("D-SIB").

Financial year to date - cumulative period ended 30 June 2023 compared to 30 June 2022

For the financial period under review, the Group's fund based income from interest bearing assets increased mainly from interest on customer lending and interest on fixed income securities. Non-interest income increased compared to same period last year.

Funding costs increased attributable to higher interest expense on deposits from customers and securities sold under repurchase agreements.

Fee based income recorded an increase of RM19.3 million mainly due to higher portfolio management fees, bancassurance commission and other fees offset by higher credit card cost. Market based income increased from higher gains from sale of securities and lower loss from derivatives.

The Group's associates and joint ventures recorded higher profits as reflected in the share of profits of RM9.8 million compared to share of loss of RM6.0 million in prior year same period. Higher share of profits was mainly due to the effect of adoption of MFRS 17 by the insurance entities.

Total operating expenses decreased by 6.6% compared to same period last year. The Group's cost-to-income ratio had improved to 42.2% from 47.2% a year ago.

Credit costs recorded a higher charge for this financial period attributable to higher allowances for impairment on loans, advances and financing and higher allowances for impairment on financial investments.

Profit before taxation and zakat from continuing operations for the current financial period was lower compared to a year ago at RM452.6 million, a decrease of RM47.9 million (9.6%).

As for discontinued operation, the profit before taxation for the current financial period was higher at RM51.1m. This was gain on disposal of general insurance as a result of the finalisation of sales consideration.

Profit for the financial period decreased by RM21.7 million to RM403.5 million compared to same period last year.

Commentary on key components of financial position

The Group's core interest bearing assets namely loans, advances and financing lower in gross balances by RM1.2 billion from 31 March 2023 to RM129.0 billion. The Group's impaired loans ratio was at 1.66%.

Deposits from customers was slightly lower compared to 31 March 2023 at RM130.3 billion. Low cost deposits which constituted 30.4% of total deposits from customers decreased compared to 37.4% as at 31 March 2023.

Liquidity and capital strength

The Group is well-positioned to meet and comply with regulatory requirements. Its banking subsidiaries recorded Liquidity Coverage ratios in excess of minimum requirements. The Group's capital adequacy ratio remains strong at 16.52% at the end of the reporting period.

B3. PROSPECTS FOR THE NEXT FINANCIAL YEAR END

Malaysia's economy expanded by 2.9% in the second quarter of 2023, a slower pace compared to the previous quarter's 5.6% growth. The slowdown was due to a combination of slowing external trade and slower-than-expected domestic demand growth. The manufacturing sector, a significant contributor to the economy, also grew marginally by 0.1%. However, domestic-oriented sectors such as services and private consumption continued to support growth. In comparison with other ASEAN peers, Malaysia's growth was lower than Indonesia's (5.2%) and the Philippines' (4.3%), while Singapore had the slowest growth at 0.5%.

We expect the economic situation for the remainder of the year until the early part of 2024 will continue to remain challenging, as most economies are still adjusting to the high interest rates environment implemented by most central banks. Globally, the outlook on the manufacturing sector remains pessimistic, reflected in the latest Global Purchasing Manager's Index ("PMI") that has been under the contractionary level since March 2023. In the United States, the Federal Reserve's ("Fed") fight against inflation seems successful as inflation and core inflation are receding. However, interest rates are likely to stay elevated at least until the mid of 2024 as tight labour market means that inflation is likely to continue to decline at slower pace. In the United Kingdom and Europe Area, a similar battle where the central banks of these economies need to balance between steep interest rate hikes and economic growth. In China, economic performance has been disappointing throughout the year, where the latest second quarter of 2023 Gross Domestic Product ("GDP") grew by 6.3%, below of market's expectation of 7.2%.

We anticipate continued support for growth from domestic demand this year. Wage growth in both the services and manufacturing sectors appears to have peaked, and employment growth has slowed to 2.3% in July 2023. However, the vacancy-to-unemployment ratio remains higher than pre-pandemic levels, suggesting room for improvement in private spending. Furthermore, tourism and related sectors are improving. As for the external front, global economic pessimism is expected to lead to slower trading activities. The impact of higher interest rates has notably affected the tech sector. We now expect the Malaysia's economy to grow by 4.0% in 2023.

In the Malaysia's banking industry, the overall outstanding loans grew at a slower pace by 4.4% year-on-year ("YoY") in June 2023 (May 2023: 4.8%). While the non-household segment loans expanded slower at 3.0%, household loans remained healthy at 5.3%. As the economy is expected to soften in 2023, we expect relatively subdued loan growth in the range of 4.0% to 5.0% for 2023 given that loan growth typically tracks GDP growth. The overall banking system remains healthy underpinned by strong liquidity. This is reflected by the liquidity coverage ratio which was at 155.3% in June 2023 (May 2023: 151.0%). The funding profile was also well-diversified with June 2023's loan-to-fund ratio and loan-to-fund-and-equity ratio at 81.6% and 70.9%, respectively (May 2023: 81.8% and 71.0%, respectively).

On the Overnight Policy Rate ("OPR"), with core inflation being modest so far due to slower hiring activities and the lag effect from the 125 bps cumulative rate hikes, we do not see any urgency for the interest rates to be increased higher from this point forward. Based on the latest data, core inflation reading was at 3.1% in June 2023, continuing its downward trend after peaking at 4.2% in November 2022. Services inflation is also on a downward trend, declining to 3.9% YoY (April 2023: 3.6% YoY). We are now looking at the lower inflation forecast of 2.7 to 3.2%. Due to these factors, the OPR is likely to stay at 3.00% for the remainder of 2023. Nevertheless, future rate hikes should not be fully discounted although it is not our baseline view. One indicator to watch is the oil price, which is trading at around USD86/barrel, which has been on its upward trend since late-June 2023.

AmBank Group continued to show resilience in its first quarter of financial year ("FY") 2024 financial performance despite being affected by the expected net interest margin ("NIM") compression arising from fierce deposit competition in FY2023. The Group, however, is encouraged by the expansion of the Malaysian economy observed in calendar year 2023 so far and remains optimistic on its FY2024 prospects. The Group's focus will continue to be on growing revenue and maintaining cost discipline. At the same time, the Group will continue to strengthen its capital base and ensure liquidity levels remain healthy while closely monitoring asset quality to reduce balance sheet related risk.

The Group is now at the final stretch of its FY2021 to FY2024 Focus 8 strategy journey and remains committed as ever to seeing it through to a successful completion. Looking forward, we will focus efforts on three primary growth accelerators: SME empowerment, advancement of Environmental, Social and Governance ("ESG") initiatives and digital innovation to continue sustainable value creation for our shareholders and stakeholders. As repayment assistance programmes gradually expire this calendar year, the Group will continue to have dialogues with customers who are still in financial difficulty and offer suitable financial assistance programmes to those who qualify.
