Settlement : Cash settlement only. The Call Warrants entitle the Holder to receive from us, within seven (7) Market Days from the Expiry Date, the Cash Settlement Amount in the Settlement Currency (if greater than zero), which shall be calculated as follows:

Cash Settlement Amount

$$= \frac{\text{Number of Call Warrants}}{\text{Exercise Ratio}} \times \frac{(\text{Closing Price} - \text{Exercise Price})}{\text{Exercise Ratio}} - \text{Exercise Expenses}$$

The “**Exercise Expenses**” will be borne by the Issuer and no charge shall be incurred by the Holders.

The Call Warrants will automatically terminate and cease to be valid at 5.00 p.m. on the Expiry Date if the Cash Settlement Amount after deduction of the Exercise Expenses, if any, is equal to or less than zero and the Issuer’s obligations in respect of the Call Warrants shall terminate absolutely. Board Lot : 100 Call Warrants

Settlement Currency : RM

Automatic Exercise : The Call Warrants shall be automatically exercised at 5.00 p.m. on the Expiry Date if the Cash Settlement Amount calculated in accordance with the Cash Settlement Amount formula after deduction of the Exercise Expenses, if any, is greater than zero (without the Holders having to deliver a valid exercise form and without notice of automatic exercise being given by the Issuer to the Holders). 1. TERMS AND CONDITIONS (cont'd)

The following are illustrations of the best and worst case scenario on an investment in Call Warrants:

Best case scenario	Worst case scenario
The price of the KAREX Shares rises substantially resulting in a significant increase in the price of the Call Warrants. If you hold the Call Warrants until its Expiry Date, the higher the Closing Price of KAREX Shares exceeds the Exercise Price, the higher the Cash Settlement Amount you will receive after considering any transaction cost. If you sell the Call Warrants on Bursa Securities before its Expiry Date, with your selling price of the Call Warrants higher than the purchase price, you will realise a profit in your investment after considering any transaction cost.	The price of the KAREX Shares falls significantly resulting in a significant decrease in the price of the Call Warrants. If you hold the Call Warrants until its Expiry Date and the Call Warrants expires out-of-money, the maximum loss will be your entire investment amount in the Call Warrants plus any transaction costs.

[The rest of this page has been intentionally left blank]

2. RISK FACTORS

BEFORE INVESTING IN THE CALL WARRANTS, YOU SHOULD CONSIDER CAREFULLY THE RISK FACTORS AND OTHER INFORMATION CONTAINED IN THE BASE PROSPECTUS, THE SUPPLEMENTARY BASE PROSPECTUSES AND THE RISK FACTORS DESCRIBED BELOW IN ADDITION TO ALL OTHER RELEVANT INFORMATION CONTAINED ELSEWHERE IN THIS TERM SHEET.

Your investment decision should be based solely upon your own independent assessment of our financial conditions and affairs, and your own appraisal of our prospects, our creditworthiness, the Terms, KAREX Shares and any other factors relevant to your decision, including the merits and risks involved.

2.1 Credit Risk

If you subscribe for or purchase the Call Warrants, you will be relying solely upon our creditworthiness as the issuer of the Call Warrants and of no other person. You do not have any recourse/rights against KAREX. If we become insolvent or default on our obligations under the Call Warrants, you may not be able to recover all or even part of the amount due under the Call Warrants.

2.2 No investigation or review performed on KAREX

We have not carried out any investigation or review of the business operations and prospects of KAREX. Therefore, our issuance of Call Warrants does not represent a recommendation by us to invest in KAREX Shares.

In addition, you should be aware that KAREX has not participated in the preparation of the Base Prospectus, the Supplementary Base Prospectuses and this Term Sheet, or in establishing the Terms. As a consequence, there can be no assurance that all events occurring before the date of this Term Sheet that would affect the trading price of KAREX Shares (and therefore the price of the Call Warrants) have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning KAREX could affect the trading price of KAREX Shares and therefore the trading price of the Call Warrants. Further, KAREX has no obligation with respect to the settlement amount to be paid to you (if any) upon exercise of the Call Warrants, including any obligation to take into account, for any reason, our needs, or your needs.

2.3 Call Warrants are not principal protected and may expire worthless

The price of the Call Warrants may change more rapidly than the price of KAREX Shares. Given the gearing feature inherent in the Call Warrants, a small change in the price of KAREX Shares may lead to a substantial price movement in the Call Warrants. Unlike stocks, the Call Warrants have a limited life and will expire on the Expiry Date. In the worst case, the Call Warrants may expire and cease to be traded and can no longer be exercised. The Call Warrants will then cease to have any value and you will lose all of your investment.

[The rest of this page has been intentionally left blank]

2. RISK FACTORS *(cont'd)*

2.4 The Call Warrants can be volatile

Prices of the Call Warrants may rise or fall rapidly. You should carefully consider, among other things, the prevailing trading price of the Call Warrants, the Exercise Price of the Call Warrants, the value and volatility of the price of KAREX Shares, the time remaining to expiry, the interim interest rates and expected dividend payments or other distributions on KAREX Shares, the liquidity of KAREX Shares, the related transaction costs (including the exercise expenses, if any), the supply and demand for the Call Warrants and the creditworthiness of the Issuer.

2.5 Time decay

All other factors being equal, the value of a Call Warrant is likely to decrease over time. Therefore, the Call Warrants should not be viewed as a product for long term investments.

2.6 Adjustment related risks

The occurrence of certain events (including a rights issue or bonus issue by KAREX, a subdivision and consolidation of KAREX Shares and a restructuring event of KAREX may entitle us to adjust the Terms of the Call Warrants. However, we are not obliged to adjust the Terms of the Call Warrants for every event that affects KAREX Shares. Any adjustment or decision not to make any adjustment may adversely affect the value of the Call Warrants.

2.7 Value of Call Warrants may be affected by inherent sectorial risk of KAREX's business

KAREX is principally an investment holding company. Its subsidiaries are involved in the manufacturing and sale of condoms, rubber products, personal lubricants and other related rubber-based healthcare products.

You should note that the occurrence of any material or adverse events in this industry may affect the performance of KAREX Shares on Bursa Securities, which may consequentially affect the value of Call Warrants.

2.8 The Base Prospectus, the Supplementary Base Prospectuses and this Term Sheet are not the sole basis for making an investment decision

The Base Prospectus, the Supplementary Base Prospectuses and this Term Sheet do not take into account your investment objectives, financial situation or particular needs. Nothing in the Base Prospectus, the Supplementary Base Prospectuses or this Term Sheet should be construed as a recommendation by us or our affiliates to invest in the Call Warrants or KAREX Shares.

[The rest of this page has been intentionally left blank]

2. RISK FACTORS *(cont'd)*

2.9 Risk related to any possible future outbreaks of disease

Any possible future outbreaks of disease may have significant adverse effect on the financial and business prospects of KAREX. This may affect the performance of KAREX Shares on Bursa Securities which would in turn affect the price of the Call Warrants.

Any possible future outbreaks could also affect AmBank's profits and financial position, hence potentially AmBank's ability to perform its obligations in respect of the Call Warrants. Should there be any possible future outbreaks on global market conditions be continued or worsen, or lead to additional market disruption, AmBank could experience negative impacts to operations, financial position and prospects. Any material or prolonged negative conditions may lead to constraints on AmBank's capital and liquidity, a downgrade in credit ratings and an increased cost of capital. Accordingly, you should evaluate the Call Warrants on your own or consult your investment adviser.

2.10 Potential tax implications

Generally, the gain from the disposal of Structured Warrants would not be subject to Malaysian income tax unless the gain is deemed as business income from the trading activities in Structured Warrants. Such business income would be subject to Malaysian income tax and the applicable income tax rate depends on the legal identity of the investor.

The buy and sell transactions of our Structured Warrants on Bursa Securities would normally attract stamp duty at the rate as prescribed by the stamp duty law and as disclosed by Bursa Securities.

From time to time, tax laws and regulations as well as their application by the relevant taxation authorities are subject to changes. You may be subject to taxes in relation to your investment in our Structured Warrants that were unexpected at the time of your investment. If you are in doubt, please consult your own independent tax advisers on your tax position considering your individual circumstances before investing in our Structured Warrants.

3.4 Break-Even Analysis

Holders may calculate the break-even level for their investment in the Call Warrants by using the following formula:

$$\text{Break-even level} = \text{Exercise Price} + (\text{Purchase Price}^{(a)} \times \text{Exercise Ratio}) + \text{Exercise Expenses}^{(b)}$$

A positive payoff is only attainable if the price of KAREX Shares exceeds the break-even level upon exercise of the Call Warrants.

Notes:

- (a) Purchase Price is the amount incurred by the investor for the purchase of one (1) unit of the Call Warrant in the primary or secondary market, and includes all relevant transaction costs such as stamp duty, clearing fee and brokerage charges, whichever is applicable.
