INTERNAL CONTROL FRAMEWORK

3.1 OVERVIEW

The Group's focus is on achieving sustainable and profitable growth within its risk management framework by ensuring sound risk practices and business outcomes are achieved and aligned through a set of limits and controls and policies and procedures to safeguard the Group's sustainable risk-taking and sufficient returns. The Group's annual strategic business plans and budgets are prepared by the Group's business divisions, which are reviewed and recommended by Group Chief Executive Officer for submission to the Board for approval. Progress of the Group's business plans and performance achievements are rigorously tracked and reviewed against the budget in monthly review meetings and specific taskforce set up for the purposes of monitoring our key focus areas allowing for timely responses and corrective actions to be taken to mitigate risks.

The Group has adopted a coordinated and formalised approach to risk management and internal control, which is operationalised through the "Three Lines of Defence" concept. The Business Units form the first line of defence, Risk and Compliance (including Shariah Review and Shariah Risk Management for Islamic Banking) form the second line of defence, while Internal Audit (including Shariah Audit for Islamic Banking) forms the third line of defence. The key risk management and internal control processes are implemented via the following:

- The RMC of the Group and its major subsidiaries assist the Board in the oversight of the overall risk management structure. At Senior Management level, a number of management-level committees have been established to assist the Board to holistically manage the risks and business of the Group. These committees, namely the Group Management Committee, Group Management Risk Committee, Group Asset and Liability Committee, Group Management Governance and Compliance Committee, Credit and Commitments Committee and Watchlist and Classification Committee, address all classes of risk within Board delegated mandates: balance sheet risk, credit risk, legal risk, operational risk, technology risk, market risk, Shariah risk, compliance risk, reputational risk, product risk and business, IT project risk and environmental, social and governance (ESG) risk.

- The organisational structure is designed to clearly define the accountability, reporting lines and approving authorities to build an appropriate system of checks and balances, corresponding to the needs of the business and operations activities. This includes the empowerment and setting of authority limits for proper segregation of duties.
- Risk management principles, policies, practices, methodologies and procedures are made available to appropriate staff in the Group. These are regularly updated to ensure they remain relevant and in compliance with regulatory requirements. The policies, methodologies and procedures are enhanced whenever required to meet the changes in operating environment and/or for continuous improvement in risk management.
- The AEC of the Company and its major subsidiaries assist the Board to evaluate the adequacy and effectiveness of the Group's system of internal controls. The AEC reviews the Group's financial statements and reports issued by Group Internal Audit and the external auditors including monitoring the corrective actions taken to address issues highlighted in the reports.
- The Shariah Committee is responsible on matters related to Shariah. This includes advising the Board and Senior Management on Shariah matters as well as endorsing and validating products and services, Shariah policies and the relevant documentation in relation to Islamic Banking business and operations. The Shariah Committee also provides advice and guidance on management of the zakat fund, charity and other social programmes or activities.

REMUNERATION

4.1 QUALITATIVE DISCLOSURE

The Group Remuneration Objectives

The Group's remuneration structure is governed by the GNRC and the Total Rewards Policy of the Group, where inputs from control functions and Risk Management Committee of the Board are solicited. This policy is applicable to all divisions and subsidiaries within the Group, seeks to ensure that we are able to attract, motivate and retain employees to deliver long-term shareholder returns taking into consideration risk management principles and standards set out by BNM Policy Document on Corporate Governance.

An independent review is conducted periodically to ensure that the Total Reward Policy and practice is in line with the industry practice and continues to support the Group's Total Reward philosophy. When formulating and refining the remuneration strategy, consideration is given to align our remuneration approach with the Group's medium to long-term strategic objective, culture and values in order to drive desired behaviours and achieve objectives set out in the balanced scorecard.

The following are the main thrusts of the Group's remuneration strategy:

- i) *Pay for performance measured against the balanced scorecard*
 - *Instills and drives meritocracy*
 - *Ensures linkages between total compensation and annual, medium and long-term strategic objectives*
 - *Balances employees' actual fixed and variable pay mix to drive sustainable performance and alignment to the Group's culture and value of assessing both behavioural and quantitative Key Performance Indicators (KPIs) achievements*
- ii) *Provide market competitive pay*
 - *Benchmarks total compensation against other peer organisations of similar size and standing in the markets and businesses where we operate*
 - *Drive pay-for-performance differentiation with differentiated benchmarking quartile for top performing employees*
- iii) *Guard against excessive risk-taking*
 - *Focuses on achieving risk-adjusted returns that are consistent with the Group's prudent risk and capital management, as well as emphasis on long-term sustainable outcomes*
 - *Designs variable payout structure with long-term performance through deferral and allowance for clawback arrangements*

The Group's Approach to Remuneration

The Group's remuneration is made up of two (2) components; fixed pay and variable pay.

Components	What	Why and Linkages to Strategy	How
<i>Fixed Pay</i>	<ul style="list-style-type: none"> a. <i>Base Salary</i> b. <i>Fixed Allowances</i> 	<p><i>Pay for Position (or market value of the job) to attract and retain by ensuring the fixed pay is competitive vis-à-vis comparable organisations</i></p>	<ul style="list-style-type: none"> • <i>Adhering to the market value of the job at the individual's competency level, skills, experience and responsibilities</i> • <i>Fixed amount paid monthly</i> • <i>Typically reviewed and revised annually</i>
<i>Variable Pay</i>	<ul style="list-style-type: none"> a. <i>Short-Term Incentive (Performance Bonus)</i> b. <i>Long-Term Incentive (AMMB ESS)</i> 	<p><i>Pay for Performance</i></p> <ul style="list-style-type: none"> • <i>Focus employees on the achievement of objectives which are aligned to value creation for the shareholders</i> 	<ul style="list-style-type: none"> • <i>Based on the performance of the Group, line of business or subsidiary and the employee's individual performance</i> • <i>Measured against a balanced scorecard with KPIs and targets agreed at the beginning of each financial year</i>

		<ul style="list-style-type: none"> • Align payout to time horizon of risk to avoid excessive risk taking and provide for deferral, malus and forfeiture arrangements 	<ul style="list-style-type: none"> • Awards for individuals in senior management positions and/or positions with significant organisational responsibilities that have material impact on the Group's performance and risk profile is subject to deferral • Deferred remunerations are paid in cash

Determination of Short-Term Incentive (Performance Bonus) Pool and Individual Award

The following mechanisms are used to derive the Group's short-term incentive pool and incentive pools for business units and/or subsidiaries:

<p><i>Group's Short-Term Incentive (STI) Pool</i></p>	<p>A function of profits benchmarked against peer comparators and calibrated against:</p> <ul style="list-style-type: none"> • Risk adjustments • Distribution of earning between shareholders and employees 	<p>Guided by the Board-approved Group STI/ Performance Bonus Framework, based on:</p> <ul style="list-style-type: none"> • Financial and non-financial metrics covering employees, customers, shareholders, risks and compliance objectives; and • Reviewed and evaluated by the GNRC and subsequently approved by the Board. The GNRC has the discretion to adjust the pool where required, based on poor performance, capital requirements, economic conditions, competitive landscape and retention needs.
<p><i>Business Unit / Subsidiaries Short-Term Incentive Pool Allocation</i></p>	<p>The Group pool is reallocated to the business units/ subsidiaries taking into account:</p> <ul style="list-style-type: none"> • each unit's actual performance achievement against target, and • the relative performance of each unit <p>measured through each unit's balanced scorecard and evaluated by the Group CEO and the GNRC.</p>	<p>Inputs from control functions (Audit, Compliance and Risk) are sought.</p> <p>The Chief Internal Auditor is measured independently with the performance outcome being recommended by the AEC, while the Chief Risk Officer and the Chief Compliance Officer are measured independently with the performance outcome being recommended by the RMC.</p>

Individual award is based on the employee's performance, measured through a balanced scorecard that takes into account qualitative and quantitative objectives as set out in the individual's KPIs. The performance of control functions (Audit, Compliance and Risk) are assessed independently from the business units they support to prevent any conflicts of interests.

Retention Award (deferred component of the Short-Term Incentives received), are paid in cash in two (2) equal instalments over a period of two (2) years. No further performance condition applies.

Sales employees are incentivised via respective sales incentive plans to promote the development of mutually beneficial long-term relationships with their customers, rather than short-term gains. As such, non-financial metrics such as customer satisfaction and fair dealing principles are incorporated into their KPIs and with compliance as payout triggers.

Long-Term Incentive (AMMB ESS)

The AMMB ESS forms the Group's long-term compensation component that is forward looking with rewards based on the Group's future performance. The ESS allows for the following objectives to be met:

- i) Align long-term interest of senior management with those of shareholders;*
- ii) Retain key employees of the Group whose contributions are essential to the long-term growth and profitability of the Group;*
- iii) Attract potential employees with the relevant skills to contribute to the Group and to create value for shareholders; and*
- iv) Deliver compensation in a manner that drives the long-term performance of the Group.*

The ESS is delivered in the form of performance shares, namely Long-Term Incentive, that vests over a period of three (3) years, contingent on the Group meeting its long-term performance targets:

Variable Pay Deferrals

Variable pay for individuals in senior management positions and/or positions with significant organisational responsibilities that have material impact on the Group's performance and risk profile is subject to deferral.

The deferral award consist of two (2) components with the objective of:

- i) Retaining key employees (Retention Award); and*
- ii) Drive the Group's long-term performance and sustainability (Long-Term Incentive Award)*
