The unaudited Condensed Interim Financial Statements should be read in conjunction with the audited financial statements of the Group and the Bank for the year ended 31 March 2023.

**EXPLANATORY NOTES :**

**1. BASIS OF PREPARATION**

These condensed interim financial statements have been prepared in accordance with MFRS 134, Interim Financial Reporting issued by the Malaysian Accounting Standards Board (“MASB”) and paragraph 9.22 of the Listing Requirements of Bursa Malaysia. These financial statements also comply with IAS 34, Interim Financial Reporting issued by the International Accounting Standards Board.

These condensed interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements of the Group and the Bank for the financial year ended 31 March 2023 which are available upon request from the Company’s registered office at Level 22, Bangunan AmBank Group, No. 55, Jalan Raja Chulan, 50200 Kuala Lumpur.

The condensed interim financial statements incorporate those stockbroking and capital market activities undertaken in compliance with Shariah principles relating to investment banking services which are regulated by Securities Commission and Bursa Malaysia Berhad.

**1.1 Significant Accounting Policies**

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following amendments to published standards:

- Classification of Liabilities as Current or Non-Current (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Definition of Accounting Estimates (Amendments to MFRS 108 *Accounting Policies, Changes in Accounting Estimates and Errors*)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 *Income Taxes*)
- International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 *Income Taxes*)

The adoption of these amendments to published standards did not have any material impact on the financial statements of the Group and of the Bank. The Group and the Bank did not have to change its accounting policies or make retrospective adjustments as a result of adopting these amendments to published standards.

The nature of the amendments to published standards relevant to the Group and the Bank are described below:

**Classification of Liabilities as Current or Non-Current (Amendments to MFRS 101 *Presentation of Financial Statements*)**

The amendments clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Liabilities are classified as non-current if the entity has a substantive right to defer settlement for at least 12 months at the end of the reporting period. Classification is unaffected by the expectations or intentions of the entity, as well as events after the reporting date. The adoption of these amendments did not result in any impact to the financial statements of the Group and the Bank.

**Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*)**

The amendments require entities to disclose material accounting policies rather than significant accounting policies in the financial statements. Entities are expected to make disclosure of accounting policies specific to the entity and not generic disclosures on MFRS applications.

An accounting policy is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the users make based on those financial statements. Also, accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements. Immaterial accounting policy information need not be disclosed. The adoption of these amendments did not result in any material impact to the financial statements of the Group and the Bank.

## 1. BASIS OF PREPARATION (CONT'D.)

### 1.1 Significant Accounting Policies (Cont'd.)

#### **Definition of Accounting Estimates (Amendments to MFRS 108 Accounting Policies, Changes in Accounting Estimates and Errors)**

The amendments redefined accounting estimates as “monetary amounts in financial statements that are subject to measurement uncertainty” and provide clarity on how to distinguish changes in accounting policies from changes in accounting estimates.

The amendments further clarified that effects of a change in an input or measurement technique used to develop an accounting estimate (for example, expected credit losses, fair value of an asset or liability, and depreciation for property and equipment) is a change in accounting estimate, if they do not arise from prior period errors. The adoption of these amendments did not result in any material impact to the financial statements of the Group and the Bank.

#### **Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 Income Taxes)**

The amendments clarified that the initial exemption rule from recognising deferred taxes does not apply to transactions where both an asset and a liability are recognised at the same time resulting in equal amounts of taxable and deductible temporary differences. This essentially means that lessees would not be able to apply the initial exemption rule in MFRS 112 for the assets and liabilities arising from leases. The adoption of these amendments did not result in any material impact to the financial statements of the Group and the Bank.

#### **International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 Income Taxes)**

The amendments introduced a mandatory temporary exception to the accounting for deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules. The adoption of these amendments did not result in any impact to the financial statements of the Group and the Bank as the Group's activities are principally conducted in Malaysia.

### 1.2 Standards issued but not yet effective

Description	Effective for annual periods beginning on or after
- Lease Liability in a Sale and Leaseback (Amendments to MFRS 16 <i>Leases</i> )	1 January 2024
- Non-current Liabilities with Covenants (Amendments to MFRS 101 <i>Presentation of Financial Statements</i> )	1 January 2024
- Supplier Finance Arrangements (Amendments to MFRS 107 <i>Statement of Cash Flows</i> and MFRS 7 <i>Financial Instruments: Disclosures</i> )	1 January 2024
- Lack of Exchangeability (Amendments to MFRS 121 <i>The Effects of Changes in Foreign Exchange Rates</i> )	1 January 2025
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 10 <i>Consolidated Financial Statements</i> and MFRS 128 <i>Investments in Associates and Joint Ventures</i> )	To be determined by MASB

The nature of the new amendments to published standards that are issued but not yet effective are described below. The Group and the Bank are assessing the financial effects of their adoption.

## **1. BASIS OF PREPARATION (CONT'D.)**

### **1.2 Standards issued but not yet effective (Cont'd.)**

#### **(a) Amendments to published standards effective for financial year ending 31 March 2025**

The amendments clarified that, in subsequently measuring the lease liability, seller-lessee determines lease payments and revised leased payments in a way that does not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee.

##### **Non-current Liabilities with Covenants (Amendments to MFRS 101 *Presentation of Financial Statements*)**

The amendments clarified that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before reporting date would affect classification as current or non-current, even if the covenant is only assessed after the entity's reporting date.

##### **Supplier Finance Arrangements (Amendments to MFRS 107 *Statement of Cash Flows* and MFRS 7 *Financial Instruments: Disclosures*)**

The amendments introduced new disclosure requirements for supplier finance arrangements which include terms and conditions of supplier financing arrangements, the amounts of the liabilities that are the subject of such agreements, the range of payment due dates and information on liquidity risk.

#### **(b) Amendments to published standards effective for financial year ending 31 March 2026**

##### **Lack of Exchangeability (Amendments to MFRS 121 *The Effects of Changes in Foreign Exchange Rates*)**

The amendments clarified when a currency is exchangeable into another currency and how an entity estimates a spot rate when a currency lacks exchangeability. New disclosure requirements include the nature and financial impacts of the currency not being exchangeable, spot exchange rate used, estimation process and risks to the entity when the currency is not exchangeable.

#### **(c) Standard effective on a date to be determined by MASB**

##### **Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 10 *Consolidated Financial Statements* and MFRS 128 *Investments in Associates and Joint Ventures*)**

The amendments clarify that:

- gains and losses resulting from transactions involving assets that do not constitute a business, between entity and its associate or joint venture are recognised in the entity's financial statements only to the extent of unrelated investors' interests in the associate or joint venture; and
- gains and losses resulting from transactions involving the sale or contribution to an associate of a joint venture of assets that constitute a business is recognised in full.

### **1.3 Significant Accounting judgements, Estimates and Assumptions**

The preparation of the condensed interim financial statements in accordance with MFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of revenue, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Judgements, estimates and assumptions are continually evaluated and are based on past experience, reasonable expectations of future events and other factors. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets and liabilities affected in future periods.

In the process of applying the Group's and the Bank's accounting policies, the significant judgements, estimates and assumptions made by management were the same as those applied to the annual financial statements for the financial year ended 31 March 2023.

## **2. AUDIT QUALIFICATION**

There was no audit qualification in the audited annual financial statements for the year ended 31 March 2023.

## **3. SEASONALITY OR CYCLICALITY OF OPERATIONS**

The operations of the Group and the Bank are not materially affected by any seasonal or cyclical fluctuation in the current financial quarter and period.

## **4. UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE OR INCIDENCE**

There were no unusual items during the current financial quarter and period.

## **5. CHANGES IN ESTIMATES**

There was no material change in estimates of amounts reported in the prior financial years that have a material effect for the financial quarter and period ended 30 September 2023.

## **6. ISSUANCE AND REPAYMENT OF DEBT AND EQUITY SECURITIES**

The Group and the Bank have not issued any new shares or debentures during the financial quarter and period.

There were no share buy-back, share cancellation, shares held as treasury shares nor resale of treasury shares by the Group and the Bank during the financial quarter and period.

## **7. DIVIDENDS**

The final single-tier dividend of 23.90 sen per ordinary share on 314,035,088 ordinary shares was declared on 26 April 2023 amounting to RM75,054,386 in respect of financial year ended 31 March 2023 and was paid by the Bank on 16 June 2023.

The directors do not recommend the payment of any dividend in respect of the current financial period ended 30 September 2023.

## **24. BUSINESS SEGMENT ANALYSIS**

Segment information is presented in respect of the Group's business segments. The business segment information is prepared based on internal management reports, which are regularly reviewed by the Chief Operating Decision-Maker in order to allocate resources to segment and to assess its performance. The division forms the basis on which the Group reports its segment information.

i. The Group comprises the following main business segments:

### **(a) Investment banking**

The Investment Banking division of the Group offers a full range of investment banking solutions and services, encompassing the following business segments:

- (i) Equity Markets – provides clients an investment avenue to participate in the equity markets through its multiple distribution channels, including remisiers, Bank Branch Broking, salaried dealers, and the internet trading platform, offering clients the flexibility to trade equities and futures both online and offline.
- (ii) Fund Management – comprises the asset and fund management services, offering a variety of investment solutions for various asset classes to retail, corporate and institutional clients.
- (iii) Private Banking – manages the private wealth of high net worth individuals, family groups and companies by offering comprehensive wealth management solutions and integrated access to expertise and resources of AMMB Group.
- (iv) Corporate Finance – provides an extensive range of corporate finance and advisory services which include mergers and acquisitions, divestitures, take-overs, initial public offerings, restructuring, privatisations, issuance of equity and equity-linked instruments as well as valuation support.
- (v) Debt Markets – provides debt financing solutions to clients through a wide array of products which include conventional corporate bonds and Islamic sukuk, loan syndication, capital and project advisory as well as structured finance and securitization deals.
- (vi) Others – other Investment Banking supporting function within the Group.

### **(b) Group Funding and Others**

Group Funding and Others comprises activities to maintain the liquidity of the Group as well as support operations of its main business units and non-core operations of the Group.

ii. Measurement of Segment Performance

The segment performance is measured on income, expenses and profit basis. These are shown after allocation of certain centralised cost, funding income and expenses and expenses directly associated with each segment. Transactions between segments are recorded within the segment as if they are third party transactions and are eliminated on aggregation.

#### **Note:**

- (i) The Chief Operating Decision Maker relies primarily on the net fee income information to assess the performance of, and to make decisions about resources to be allocated to these operating segments.
- (ii) The financial information by geographical segment is not presented as the Group's activities are principally conducted in Malaysia.
- (iii) The comparatives have been restated to conform with current business realignment.

**25. COMMITMENTS AND CONTINGENCIES**

In the normal course of business, the Group and the Bank make various commitments and incur certain contingent liabilities with legal recourse to its customers. No material losses are anticipated as a result of these transactions. The commitments and contingencies are not secured against the Group's and the Bank's assets.

The principal amounts of the commitments and contingencies and notional contracted amounts of derivatives of the Group and the Bank are as follows:

	<b>Group and Bank</b>	
	<b>30 September</b>	<b>31 March</b>
	<b>2023</b>	<b>2023</b>
	<b>RM'000</b>	<b>RM'000</b>
<b>Commitments</b>		
Other commitments, such as formal standby facilities and credit lines, with an original maturity of up to one year	236,475	232,402
<b>Derivative Financial Instruments</b>		
Foreign exchange related contracts:		
- One year or less	242	1,249
	<u>236,717</u>	<u>233,651</u>

## **26. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS**

### **Determination of fair value and fair value hierarchy**

The Group and the Bank measure fair value using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities measured at fair value that are recognised on a recurring basis, the Group and the Bank determine whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial assets and liabilities measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions are assets and liabilities for which pricing is obtained via pricing services, but where prices have not been determined in an active market, financial assets with fair values based on broker quotes, investments in private equity funds with fair values obtained via fund managers and assets that are valued using the AMMB Group's own models whereby the majority of assumptions are market observable.

Non-market observable inputs means that fair values are determined, in whole or in part, using a valuation technique (model) based on assumptions that are neither supported by prices from observable current market transactions in the same instrument, nor are they based on available market data. The main asset classes in this category are unlisted equity investments and debt instruments. Valuation techniques are used to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. However, the fair value measurement objective remains the same, that is, an exit price from the perspective of the Group or the Bank. Therefore, unobservable inputs reflect the Group's and the Bank's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). These inputs are developed based on the best information available, which might include the Group's and the Bank's own data as well as financial information from the counterparties. Unquoted equity investments at FVOCI are measured using adjusted net asset based on available market information.

8.5% (31 March 2023 : 8.9%) of the Group's and the Bank's total financial assets recorded at fair value, are based on estimates and recorded as Level 3 investments. Where estimates are used, these are based on a combination of independent third-party evidence and internally developed models, calibrated to market observable data where possible. While such valuations are sensitive to estimates, it is believed that changing one or more of the assumptions to reasonably possible alternative assumptions would not change the fair value significantly.

There was no transfer between Level 1 and Level 2 during the current financial quarter and previous financial year for the Group and the Bank.

**26. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS (CONT'D.)**

(a) The following tables show the Group's and the Bank's financial instruments that are measured at fair value at the reporting date analysed by levels within the fair value hierarchy.

<b>30 September 2023</b>	< ----- Group and Bank ----- >			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	<b>RM'000</b>	<b>RM'000</b>	<b>RM'000</b>	<b>RM'000</b>
<b>Assets measured at fair value</b>				
Financial investments at fair value through other comprehensive income				
- Money market securities	-	30,225	-	30,225
- Unquoted shares	-	-	2,794	2,794
	-	30,225	2,794	33,019
<b>Liability measured at fair value</b>				
Derivative financial liabilities				
	2	-	-	2

<b>31 March 2023</b>	< ----- Group and Bank ----- >			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	<b>RM'000</b>	<b>RM'000</b>	<b>RM'000</b>	<b>RM'000</b>
<b>Assets measured at fair value</b>				
Financial investments at fair value through other comprehensive income				
- Money market securities	-	30,480	-	30,480
- Unquoted shares	-	-	2,986	2,986
	-	30,480	2,986	33,466
<b>Liability measured at fair value</b>				
Derivative financial liabilities				
	4	-	-	4

**26. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS (CONT'D.)**

**Movements In Level 3 financial instruments measured at fair value**

The level of the fair value hierarchy of financial instruments is determined at the beginning of each reporting period. The following table shows a reconciliation of the opening and closing amounts of Level 3 financial assets which are recorded at fair value:

	<b>Equity instruments at fair value through other comprehensive income</b>	
	<b>30 September</b>	<b>31 March</b>
	<b>2023</b>	<b>2023</b>
	<b>RM'000</b>	<b>RM'000</b>
<b>Group and Bank</b>		
At beginning of the financial period/year	2,986	3,152
Unrealised loss on changes in fair value taken up in statement of comprehensive income	(192)	(166)
At end of the financial period/year	<u>2,794</u>	<u>2,986</u>

Total loss or gain included in the statement of comprehensive income for financial instruments held at the end of reporting period/year:

	<b>30 September</b>	<b>31 March</b>
	<b>2023</b>	<b>2023</b>
	<b>RM'000</b>	<b>RM'000</b>
<b>Financial investments at fair value through other comprehensive income</b>		
Unrealised loss in fair value reserve	<u>(192)</u>	<u>(166)</u>

There were no transfers between Level 2 and Level 3 financial instruments during the current financial period and previous financial year for the Group and the Bank.

**Impact on fair value of Level 3 financial instruments measured at fair value arising from changes to key assumptions.**

Changing one or more of the inputs to reasonable alternative assumptions would not change the value significantly for the financial assets in Level 3 of the fair value hierarchy.

## 27. CAPITAL ADEQUACY

(a) The capital adequacy ratios of the Group and the Bank are as follows:

Under transitional arrangement (Note (i))	Group	Bank
<b>As at 30 September 2023 *</b>		
Common Equity Tier 1 ("CET1") Capital Ratio	25.475%	26.954%
Tier 1 Capital Ratio	25.475%	26.954%
Total Capital Ratio	26.155%	27.790%
<b>As at 31 March 2023</b>		
Before deducting proposed dividends:		
CET1 Capital Ratio	40.806%	43.205%
Tier 1 Capital Ratio	40.806%	43.205%
Total Capital Ratio	41.427%	43.993%
After deducting proposed dividends:		
CET1 Capital Ratio	34.646%	35.067%
Tier 1 Capital Ratio	34.646%	35.067%
Total Capital Ratio	35.267%	35.856%

\* No interim dividend is proposed for the period ended 30 September 2023.

Notes:

(i) The capital adequacy ratios of the Group and of the Bank are computed in accordance with BNM's policy document on Capital Adequacy Framework (Capital Components) issued on 9 December 2020 and Capital Adequacy Framework (Basel II – Risk Weighted Assets) issued on 3 May 2019. The Group and the Bank have adopted the Standardised Approach for Credit and Market Risks and the Basic Indicator Approach for Operational Risk, based on BNM's Guidelines on Capital Adequacy Framework (Basel II - Risk Weighted Assets).

Pursuant to the revised BNM policy document, Capital Adequacy Framework (Capital Component) issued on 9 December 2020, the capital ratios had been computed by applying transitional arrangements. Under the transitional arrangements, the Group and the Bank are allowed to add back the amount of loss allowance for non credit impaired exposure (ie: stage 1 and stage 2 provision) to CET1 Capital. Had the transitional arrangements not been applied, the impact to the capital ratios of the Group and the Bank is not material.

(ii) Pursuant to the BNM's guidelines on Capital Adequacy Framework (Capital Components) issued, a financial institution is required to hold and maintain, at all times, minimum capital adequacy ratios at 4.5% for CET1 Capital, 6.0% for Tier 1 Capital and 8.0% for Total Capital Ratio. In addition, a financial institution is also required to hold and maintain capital buffers in the form of CET1 Capital above the minimum CET1 Capital, Tier 1 Capital and Total Capital adequacy levels. The capital buffers shall comprise the sum of the following:

- (a) a Capital Conservation Buffer ("CCB") of 2.5%;
- (b) a Countercyclical Capital Buffer ("CCyB") determined as the weighted-average of the prevailing CCyB rates applied in the jurisdictions in which the banking institution has credit exposures. BNM will communicate any decision on the CCyB rate by up to 12 months before the date from which the rate applies for exposures in Malaysia; and
- (c) a Higher Loss Absorbency ("HLA") requirement for a financial institution that is designated as a domestic systemically important bank ("DSIB").

**27. CAPITAL ADEQUACY (CONT'D.)**

(b) The components of CET1, Tier 2 Capital and Total Capital of the Group and the Bank are as follows:

	<b>Group</b>		<b>Bank</b>	
	<b>30 September 2023 RM'000</b>	<b>31 March 2023 RM'000</b>	<b>30 September 2023 RM'000</b>	<b>31 March 2023 RM'000</b>

	<b>Group</b>		<b>Bank</b>	
	<b>30 September 2023 RM'000</b>	<b>31 March 2023 RM'000</b>	<b>30 September 2023 RM'000</b>	<b>31 March 2023 RM'000</b>
Credit RWA	1,046,764	605,137	1,016,061	582,070
Market RWA	15,411	13,661	6,310	6,231
Operational RWA	614,564	599,570	339,527	334,056
<b>Total RWA</b>	<b>1,676,739</b>	<b>1,218,368</b>	<b>1,361,898</b>	<b>922,357</b>

## 28. CREDIT TRANSACTIONS AND EXPOSURES WITH CONNECTED PARTIES

The disclosure on credit transactions and exposures with connected parties is required in accordance with Para 9.1 of Bank Negara Malaysia's revised Guidelines on Credit Transactions and Exposures with Connected Parties.

<b>Group and Bank</b>	<b>30 September 2023 RM'000</b>	<b>31 March 2023 RM'000</b>
Outstanding credit exposure with connected parties	188	-
Percentage of outstanding credit exposure to connected parties as proportion of total credit exposures	0.02%	-

## 29. PERFORMANCE REVIEW FOR THE PERIOD ENDED 30 SEPTEMBER 2023

The Group's profit before taxation for the six months ended 30 September 2023 of RM50.8 million was higher mainly due to higher portfolio management fees, brokerage fees and commissions, corporate advisory fees, arrangement and upfront fees and other loan and securities related fees offset by lower wealth management fees and higher personnel and service transfer pricing expenses.

In the opinion of the directors, the results of operations of the Group for the financial period have not been substantially affected by any item, transaction or event of a material and unusual nature.

## 30. PROSPECTS FOR FINANCIAL YEAR ENDING 31 MARCH 2024 ("FY24")

During third quarter of 2023, Malaysia's economy expanded by 3.3% year-on-year ("yoy"), faster pace compared to the previous quarter's 2.9% based on Department of Statistic Malaysia ("DOSM")'s preliminary estimates showed. The faster growth can be attributed to the strong expansion in the services sector, which rose by 5.1% yoy, alongside the construction sector's growth (+5.8% yoy) and recovery in the agriculture sector (+0.8% yoy). On the flipside, both manufacturing and mining and quarrying sectors declined marginally by 0.1% yoy.

We expect the global economic condition for the remainder of the year until the early part of 2024 will continue to be subdued, as most economies are still adjusting to the high interest rates environment implemented by most central banks. Globally, the outlook on the manufacturing sector remains pessimistic, reflected in the latest Global Purchasing Manager's Index ("PMI") that has been under the contractionary level since March 2023. In the United States, the Federal Reserve's ("Fed") fight against inflation seems successful as inflation and core inflation are receding. However, it comes with a price as interest rates are likely to stay elevated at above until the end of 2024. Similarly, rates are likely to remain high in the United Kingdom and Eurozone and signs of softer economic activity have already become apparent in those economy. The upside risk to inflation is seen coming from the recent rise in global oil prices and if the situation persists as we step into 2024 later, consumer purchasing would be eroded further. In China, signs of stabilising economy emerge as the recent third quarter of 2023 Gross Domestic Product ("GDP") posted a 4.9% yoy growth, beating market forecast of 4.4% yoy.

We anticipate continued support for growth from domestic demand this year. Wage growth in both the services and manufacturing sectors appears to have peaked, and employment growth has slowed to 2.0% in September 2023. However, the vacancy-to-unemployment ratio remains higher than pre-pandemic levels, suggesting room for improvement in private spending. Furthermore, tourism and related sectors are still improving and have yet to reach its pre-pandemic level. On the downside, subdued global trading activities is expected to persist and constraint Malaysia's economic growth. We now expect the domestic economy to grow by 4.0% in 2023 and 4.5% in 2024 but balance of risks is tilted towards the downside

On another note, the government released New Industrial Master Plan 2030 ("NIMP 2030") recently which aims to transform industries to the next level in accordance with emerging global trends i.e., capitalising the changing geopolitical landscape, digitalisation and environmental, social, and governance ("ESG") compliances. At the same time, the government also tabled the new 12th Malaysia Plan in which the GDP growth target was revised to 5.0% to 6.0% per annum, compared to previous target of 4.5% to 5.5%. Also, in its recent Budget 2024 tabling, the government set out RM393.8 billion spending for next year. The Budget reflects the government's commitment in consolidating its fiscal position, supporting the People through subsidies and assistance, and embracing ESG into its sustainable economic plan.

### **30. PROSPECTS FOR FINANCIAL YEAR ENDING 31 MARCH 2024 ("FY24") (CONT'D.)**

In the Malaysia's banking industry, the overall outstanding loans expanded by 4.3% in September 2023. While the non-household segment loans expanded slower at 2.6%, household loans remained healthy at 5.6%. As the economy is expected to soften in 2023, we expect relatively subdued loan growth in the range of 4.0% to 5.0% for 2023 given that loan growth typically tracks GDP growth. The overall banking system remains healthy underpinned by strong liquidity. This is reflected by the liquidity coverage ratio which was at 151.5% in September 2023 (August 2023: 150.3%). The funding profile was also well-diversified with September 2023's loan-to-fund ratio and loan-to-fund-and-equity ratio at 82.5% and 71.9%, respectively (August 2023: 82.3% and 71.6%, respectively).

On the Overnight Policy Rate ("OPR"), with core inflation being modest so far due to slower hiring activities and the lag effect from the 125 bps cumulative rate hikes, we expect the OPR to stay at 3.00% until the end of 2024. Given that core inflation easing further to 2.5% in September 2023 coupled with contraction in exports, there is no immediate pressure to alter the policy rate. Nevertheless, the upside risk to inflation is expected to come from subsidiary rationalisation which is currently in the pipeline. Should the situation later translate into persistently high inflation, then there is a case to revisit our current OPR call.

On the back of this, the Malaysian financial capital markets are expected to remain positive in FY2024. Activities across Corporate Finance, Debt Markets, Equity Capital and Mergers & Acquisitions are expected to pick up pace, supported by a recovery in economic activities. Government has implemented a number of measures to support businesses to create a more favourable environment for businesses to access financing, which will also see more demand for capital market services.

With an encouraging performance for the second quarter of FY2024, Funds Management is expected to continue this trajectory mainly driven by institutional and corporate flows. We have launched an Environmental, Social and Governance ("ESG") fund on Global Lower Carbon Equity Fund and intend to convert several existing conventional funds into Sustainable and Responsible Investment ("SRI") funds and we will leverage on these to further strengthen our position with institution and corporate clients.

On Equity market, we expect Bursa volume and value continue to be lacklustre for the remainder of the year hence growth in brokerage income will continue to be challenging. To remain competitive in the market, we will focus our efforts to invest in upgrading the trading platform to better serve our customers.

Despite the headwinds, the Group expects to show resilience of its performance as it continues to push growth in its revenue whilst practicing cost discipline.

### **31. VALUATION OF PROPERTY AND EQUIPMENT**

Property and equipment are stated at cost less accumulated depreciation and impairment losses (if any).

### **32. EVENT SUBSEQUENT TO REPORTING DATE**

Subsequent to the approval of the condensed financial statements for the period ended 30 September 2023 by the Board of Directors, the Bank has mutually agreed with Lembaga Hasil Dalam Negeri Malaysia on the tax treatment of exceptional expenses incurred in the financial year ended 31 March 2021. As a result, the total tax deduction for the Bank amounting to RM70.8 million. As at 30 September 2023, the Bank had recognised a portion of tax deduction amounting to RM14.1 million as tax recoverable. The remaining tax deduction of RM56.7 million will be recognised in the upcoming quarter.
