The unaudited condensed interim financial statements should be read in conjunction with the audited annual financial statements of the Group and the Company for the financial year ended 31 March 2024.

EXPLANATORY NOTES :

A1. BASIS OF PREPARATION

These condensed interim financial statements have been prepared in accordance with MFRS 134 *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB") and paragraph 9.22 of the Listing Requirements of Bursa Malaysia. These financial statements also comply with IAS 34 *Interim Financial Reporting* issued by the International Accounting Standards Board.

These condensed interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements of the Group and the Company for the financial year ended 31 March 2024 which are available upon request from the Company's registered office at Level 22, Bangunan AmBank Group, No. 55, Jalan Raja Chulan, 50200 Kuala Lumpur.

The condensed interim financial statements incorporate those activities relating to Islamic banking which have been undertaken by the Group.

A1.1 Material Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following amendments to published standards:

- Lease Liability in a Sale and Leaseback (Amendments to MFRS 16 *Leases*)
- Non-current Liabilities with Covenants (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Supplier Finance Arrangements (Amendments to MFRS 107 *Statement of Cash Flows* and MFRS 7 *Financial Instruments: Disclosures*)

The adoption of these amendments to published standards did not have any material impact on the financial statements of the Group and of the Company. The Group and the Company did not have to change its accounting policies or make retrospective adjustments as a result of adopting these amendments to published standards.

The nature of the amendments to published standards relevant to the Group and the Company are described below:

(a) Lease Liability in a Sale and Leaseback (Amendments to MFRS 16 *Leases*)

The amendments clarified that after the commencement date, seller-lessee determines lease payments and revised leased payments in a way that does not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee.

(b) Non-current Liabilities with Covenants (Amendments to MFRS 101 *Presentation of Financial Statements*)

The amendments clarified that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before reporting date would affect classification as current or non-current, even if the covenant is only assessed after the entity's reporting date.

(c) Supplier Finance Arrangements (Amendments to MFRS 107 *Statement of Cash Flows* and MFRS 7 *Financial Instruments: Disclosures*)

The amendments introduced new disclosure requirements for supplier finance arrangements which include terms and conditions of supplier financing arrangements, the amounts of the liabilities that are the subject of such agreements, the range of payment due dates and information on liquidity risk.

A1. BASIS OF PREPARATION (CONT'D.)

A1.1 Material Accounting Policies (Cont'd.)

New standards and amendments to published standards issued but not yet effective (Cont'd.)

The nature of the new standards and amendments to published standards issued but not yet effective are described below. The Group and the Company are currently assessing the financial effects of their adoption.

(a) Amendments to published standard effective for financial year ending 31 March 2026

Lack of Exchangeability (Amendments to MFRS 121 *The Effects of Changes in Foreign Exchange Rates*)

The amendments clarified when a currency is exchangeable into another currency and how an entity estimates a spot rate when a currency lacks exchangeability. New disclosure requirements include the nature and financial impacts of the currency not being exchangeable, spot exchange rate used, estimation process and risks to the entity when the currency is not exchangeable.

(b) Amendments to published standard effective for financial year ending 31 March 2027

Amendments to the Classification and Measurement of Financial Instruments (Amendments to MFRS 9 *Financial Instruments* and MFRS 7 *Financial Instruments: Disclosures*)

The amendments clarified the dates of recognition and derecognition of financial assets and liabilities, with a new exception for financial liabilities settled through an electronic cash transfer system.

The amendments also provide additional guidance for assessing whether financial assets with contingent features that are not related directly to a change in basic lending risks or costs meet the solely payments of principal and interest ("SPPI") criterion.

Key characteristics of contractually linked instruments and the factors to be considered when assessing the cash flows underlying a financial asset with non-recourse features are also included in the amendments.

Additional disclosures are required for certain financial instruments with contractual terms that can change their cash flows and equity instruments designated at fair value through other comprehensive income.

(c) New standards effective for financial year ending 31 March 2028

MFRS 18 *Presentation and Disclosure in Financial Statements*

MFRS 18 is a new accounting standard for presentation and disclosure of information in the financial statements which supersedes MFRS 101 *Presentation of Financial Statements*.

MFRS 18 introduced a defined structure for the statement of profit or loss comprising three main categories which include operating, investing and financing categories. Classification of income and expenses will be driven by the main business activities. Specified totals and subtotals are to be presented in the statement of profit or loss.

Information related to the management-defined performance measures ("MPM") should be disclosed in a note to the financial statements, including a reconciliation between the MPM and the most similar specified subtotal. Entity is also required to present expenses in the operating category by nature, function or a mix of both.

Enhanced guidance on the principles of aggregation and disaggregation, which focus on grouping of items based on their shared characteristics should be applied across the financial statements.

MFRS 19 *Subsidiaries without Public Accountability: Disclosures*

MFRS 19 introduced reduced disclosure requirements for eligible subsidiaries. An eligible subsidiary has the option to adopt this standard in its consolidated or separate financial statements provided that it does not have public accountability and it has an ultimate or intermediate holding company that produces consolidated financial statements in accordance with IFRS Accounting Standards.

(d) Amendments to published standard effective on a date to be determined by MASB

Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 10 *Consolidated Financial Statements* and MFRS 128 *Investments in Associates and Joint Ventures*)

The amendments clarified that:

- gains and losses resulting from transactions involving assets that do not constitute a business, between entity and its associate or joint venture are recognised in the entity's financial statements only to the extent of unrelated investors' interests in the associate or joint venture; and
- gains and losses resulting from transactions involving the sale or contribution to an associate of a joint venture of assets that constitute a business is recognised in full.

A1. BASIS OF PREPARATION (CONT'D.)

A1.2 Material Accounting Judgements, Estimates and Assumptions

The preparation of the condensed interim financial statements in accordance with MFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of revenue, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Judgements, estimates and assumptions are continually evaluated and are based on the past experience, reasonable expectations of future events and other factors. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Group's and the Company's accounting policies, the material judgements, estimates and assumptions made by management were the same as those applied to the annual financial statements for the financial year ended 31 March 2024.

A2. AUDIT QUALIFICATION

There was no audit qualification in the annual financial statements for the financial year ended 31 March 2024.

A30. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

Determination of fair value and fair value hierarchy

The Group and the Company measure fair value using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities measured at fair value that are recognised on a recurring basis, the Group and the Company determine whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial assets and liabilities measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions are assets and liabilities for which pricing is obtained via pricing services, but where prices have not been determined in an active market, financial assets with fair values based on broker quotes, investments in private equity funds with fair values obtained via fund managers and assets that are valued using the Group's own models whereby the majority of assumptions are market observable.

Non market observable inputs means that fair values are determined, in whole or in part, using a valuation technique (model) based on assumptions that are neither supported by prices from observable current market transactions in the same instrument, nor are they based on available market data. The main asset classes in this category are unlisted equity investments and debt instruments. Valuation techniques are used to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. However, the fair value measurement objective remains the same, that is, an exit price from the perspective of the Group or the Company. Therefore, unobservable inputs reflect the Group's and the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). These inputs are developed based on the best information available, which might include the Group's and the Company's own data, as well as financial information of the counterparties. Unquoted equity investments at FVOCI are revalued using adjusted net assets method.

About 2.1% (31 March 2024: 1.9%) of the Group's total financial assets recorded at fair value, are based on estimates and recorded as Level 3 investments. Where estimates are used, these are based on a combination of independent third-party evidence and internally developed models, calibrated to market observable data where possible. While such valuations are sensitive to estimates, it is believed that changing one or more of the assumptions to reasonably possible alternative assumptions would not change the fair value significantly.

The following tables show the Group's and the Company's financial instruments that are measured at fair value at the reporting date analysed by levels within the fair value hierarchy.

Movements in Level 3 financial instruments measured at fair value

The level of the fair value hierarchy of financial instruments is determined at the beginning of each reporting period. The following table shows a reconciliation of the opening and closing amounts of Level 3 financial assets which are recorded at fair value at the reporting date.

Group	Financial assets at FVTPL RM'000	Financial investments at FVOCI RM'000	Total RM'000
30.06.2024			
Balance at beginning of the financial period	29	721,045	721,074

There were no transfers between Level 2 and Level 3 during the current financial period and previous financial year for the Group.

Total gains or losses included in the statement of profit or loss and statement of comprehensive income for financial instruments held at the end of the reporting date:

Group	30.06.2024 RM'000	31.03.2024 RM'000
Financial assets at FVTPL:		
Total loss included in:		
- investment and trading income in statement of profit or loss	-	(4)
Financial investments at FVOCI:		
Total gains included in:		
- fair value reserve in statement of comprehensive income	86,764	38,187

Impact on fair value of Level 3 financial instruments measured at fair value arising from changes to key assumptions

Changing one or more of the inputs to reasonable alternative assumptions would not change the value significantly for the financial assets in Level 3 of the fair value hierarchy.

Financial year to date - cumulative period ended 30 June 2024 compared to 30 June 2023

The Group reported a net income of RM1,178.5 million (Q1FY2024: RM1,201.9 million). Net interest income ("NII") grew 6.4% YoY to RM860.9 million (Q1FY2024: RM808.7 million), on the back of a 13 basis points ("bps") net interest margin ("NIM") expansion to 1.89% (Q1FY2024: 1.76%). Gross loans, advances and financing grew 2.9% YoY mainly led by Business Banking loans growth of 16.5% YoY. Non-interest income ("Noll") was 19.2% lower YoY to RM317.6 million (Q1FY2024: RM393.2 million) due to non-repeat of the AmGeneral Insurance Berhad divestment gain of RM51.1 million and lower trading and securities gain. Continuing Operations' net income of RM1,178.5 million was 2.4% higher YoY, led by NII growth of 6.4%, offset by a 7.1% decline in Noll.

Overall expenses were up by 2.5% YoY to RM520.6 million, increasing Cost-to-Income ("CTI") to 44.2% (Q1FY2024: 42.2%).

Profit before provisions ("PBP") was 5.2% lower YoY at RM657.9 million (Q1FY2024: RM694.2 million). Continuing Operations PBP of RM657.9 million, however, was 2.3% higher YoY.

Net impairment charges this quarter were lower at RM12.3 million (Q1FY2024: RM190.4 million) due to lower impairment charges in Retail Banking and Business Banking with higher forward-looking reversals arising from favourable changes in macroeconomic variables.

As a result, profit after taxation and minority interest ("PATMI") grew 32.2% YoY to RM500.2 million, culminating in an improved annualised return on equity ("ROE") of 10.2% (Q1FY2024: 8.3%). Return on assets ("ROA") also improved to 1.02% (Q1FY2024: 0.83%). Continuing Operations' PATMI of RM500.2 million grew 42.0% YoY.

Divisional performance

Retail Banking - Profit after taxation ("PAT") of RM87.0 million

PAT increased RM46.4 million YoY to RM87.0 million mainly from higher income and lower net impairment, partially offset by higher operating expenses.

Income grew 2.2% YoY to RM475.4 million, driven by a 29.9% YoY Noll growth from foreign exchange ("FX") and Wealth Management, partly offset by margin compression. Operating expenses increased marginally by 1.0% YoY. Net impairment charge was lower at RM74.2 million (Q1FY2024: RM127.8 million) mainly due to writeback of forward-looking provisions.

Gross loans, advances and financing increased 0.8% YoY to RM73.8 billion driven by mortgages while total deposits increased 8.1% YoY to RM65.1 billion.

B1. PERFORMANCE REVIEW ON THE RESULTS OF THE GROUP (CONT'D.)

Divisional performance (Cont'd.)

Business Banking - PAT of RM196.8 million

PAT increased by RM145.7 million YoY to RM196.8 million mainly due to higher income and writeback of impairment and provision, partially offset by higher operating expenses.

Income grew 18.0% YoY to RM317.6 million driven by a 15.4% YoY growth in NII from strong loans growth and higher NIM. Noll grew 26.4% YoY from higher loan-related fees and FX income. Operating expense was 4.3% higher YoY at RM92.9 million. Q1FY2025 recorded writeback of impairment and provision amounting to RM32.4 million (Q1FY2024: impairment charge and provision of RM113.6 million).

Gross loans, advances and financing increased 16.5% YoY to RM38.7 billion, while total deposits recorded a 28.5% increase YoY to RM28.5 billion.

Wholesale Banking - PAT of RM162.2 million

PAT decreased RM70.6 million YoY to RM162.2 million mainly attributable to lower income, higher operating expenses and lower writeback of net impairment.

Income decreased 19.6% YoY to RM269.0 million mainly due to lower Noll, partially offset by a 9.9% YoY growth in NII. Operating expenses increased marginally by 2.8% YoY to RM85.8 million. Net impairment writeback was lower at RM26.5 million (Q1FY2024: RM49.1 million).

Gross loans, advances and financing declined 10.5% YoY to RM18.0 billion, while total deposits decreased 16.2% YoY to RM48.1 billion.

(i) Corporate and Transaction Banking - PAT of RM78.9 million

PAT decreased RM35.5 million YoY to RM78.9 million mainly due to lower income and lower writeback of net impairment.

Income decreased 3.5% YoY to RM129.3 million, driven by a 2.0% YoY decline in NII. Operating expenses increased 3.8% YoY to RM49.7 million. Net impairment writeback was lower at RM24.2 million (Q1FY2024: RM64.1 million) due to lower writeback of impairment on loans, advances and financing.

Gross loans, advances and financing declined 10.5% YoY to RM18.0 billion, while total deposits increased 14.6% YoY to RM11.4 billion.

(ii) Group Treasury and Markets - PAT of RM83.3 million

PAT decreased 29.7% YoY to RM83.3 million mainly due to lower income and higher operating expenses, partially offset by net writeback of impairment on financial investments and other financial assets.

Income reduced RM60.7 million or 30.3% YoY due to lower trading and securities gains.

Investment Banking and Funds Management - PAT of RM37.1 million

PAT increased 35.3% YoY to RM37.1 million. This was attributable to income rising 10.1% YoY to RM99.9 million underpinned by strong fee income from Broking and Private Banking, coupled with writeback of impairment, partially offset by lower funds management income and higher operating expenses which grew 5.1% YoY. Funds Management delivered a PAT of RM19.0 million (Q1FY2024: RM20.9 million) with assets under management ("AUM") growth of 6.4% YoY to RM51.4 billion (Q1FY2024: RM48.3 billion).

Insurance (Continuing Operations) - PAT of RM29.4 million

Insurance businesses PAT grew 219.5% YoY to RM29.4 million mainly due to higher premium and lower reserves, partially offset by higher claims. Others - Loss after taxation ("LAT") of RM12.3 million

This segment comprises activities supporting operations of the Group's main business units and non-core operations. Higher LAT was mainly due to higher taxation charge, partially offset by improved net income.

B1. PERFORMANCE REVIEW ON THE RESULTS OF THE GROUP (CONT'D.)

Divisional performance (Cont'd.)

General Insurance (Discontinued Operation)

A non-repeat gain of RM51.1 million was recorded in Q1FY2024 upon the completion of the divestment of AmGeneral Insurance Berhad. After adjusting for minority interest, PATMI attributable to shareholders was RM26.1 million.

Islamic Banking – Profit after taxation and zakat ("PATZ") of RM137.6 million

PATZ increased 28.3% YoY to RM137.6 million. Total income grew marginally 1.2% YoY to RM298.3 million driven by an 8.9% YoY growth in NII due to NIM expansion coupled with lower net impairment. Operating expenses increased 4.8% YoY to RM123.4 million.

Commentary on key components of financial statements

The Group's gross impaired loans, advances and financing ("GIL") ratio was at 1.70% (FY2024: 1.67%) with a loan/financing loss coverage (including regulatory reserves) of 107.6% (FY2024: 109.5%). The Group continues to monitor its asset quality vigilantly.

Total gross loans, advances and financing decreased by a marginal 1.1% year to date ("YTD") to RM132.7 billion (FY2024: RM134.1 billion), mainly due to a large loan repayment in Wholesale Banking, offset by growth in Business Banking (increased RM0.6 billion or +1.5% YTD).

Total customer deposits decreased 4.8% YTD to RM135.5 billion (FY2024: RM142.4 billion) as the Group managed its cost of funds and diversified funding sources to improve margins. Time deposits remained flat YTD at RM89.7 billion (FY2024: RM89.6 billion) while current account savings accounts ("CASA") decreased 13.3% YTD to RM45.8 billion (FY2024: RM52.8 billion). CASA mix declined to 33.8% (FY2024: 37.1%).

Capital ratios improved further underpinned by RWA reduction from asset repayments and improved reserves from the fair value through other comprehensive income ("FVOCI") portfolio. The Group's CET1 improved to 13.24% (FY2024: 13.04%) while total capital ratio ("TCR") improved to 16.52% (FY2024: 16.30%). If Q1FY2025 unverified profits were included, CET1 would improve further to 13.68% while TCR would improve to 16.96%.

The Group remained highly liquid with an liquidity coverage ratio ("LCR") of 167.9% (FY2024: 164.6%) while loan-to-deposit ratio ("LDR") was slightly higher at 97.9% (FY2024: 94.2%).

Profit attributable to equity holders of the Company	500,197	476,536	23,661	5.0

For the financial quarter under review, the Group's total income was higher 0.8% quarter-on-quarter ("QoQ") to RM1,178.5 million. The Group's NII increased 4.6% QoQ to RM860.9 million mainly driven by 10bps NIM improvement to 1.89%. However, this was partially offset by lower Noll, decreased 8.3% QoQ to RM317.6 million largely due to lower group treasury and markets ("GTM") trading income and lower non-flow income from Investment Banking, mainly due to lower corporate advisory fees from Corporate Finance.

Total operating expenses decreased by 1.7% QoQ to RM520.6 million from lower bonus and long term incentive ("LTI") provisions, partly offset by annual salary increment and higher computerisation costs. CTI was lower at 44.2%.

PBP was higher 2.8% QoQ at RM657.9 million.

B2. REVIEW OF MATERIAL CHANGES IN PROFIT BEFORE TAXATION (CONT'D.)

Net impairment charge was lower at RM12.3 million (Q4FY2024: RM20.3 million) due to lower allowances for impairment on loans, advances and financing in current quarter, higher writeback of impairment of financial investments and higher writeback of provision for commitments and contingencies.

Against the preceding quarter, profit before taxation and zakat from continuing operations for the current quarter is higher at RM645.7 million, an increase of RM25.9 million or 4.2%.

PATMI for the financial quarter was higher by RM23.7 million or 5.0% to RM500.2 million compared to the preceding quarter.

B3. PROSPECTS FOR THE NEXT FINANCIAL YEAR END

Recently, the United States ("US") Federal Reserve ("Fed") signalled that rate cuts during the upcoming September meeting is 'on the table', giving investors the good news they have been waiting for. The signal underpins that the Fed is now focusing less on inflationary pressure and more on the softening labour market. Latest data suggests the world's biggest economy is cooling steadily amid the unprecedented policy tightening. Nonetheless, the Fed officials conveyed mixed messages as most of them are still not ready to start lowering the Federal Funds Rate ("FFR"), highlighting not to let the risk of "moving too early" to materialise. Overall, global markets are now expecting the Fed to start cutting the FFR during September meeting but pared their bets on a larger 50bps as data only suggests 'soft-landing' scenario and not a 'hard-landing' one. In the meantime, both the Eurozone's and United Kingdom's economies continue to limp along after it overcame the technical recession experienced in the second half of calendar year ("CY") 2023.

The European Central Bank ("ECB") took its first step in doing so during June's policy meeting and further established itself among the earliest major central banks to ease its monetary policy. The ECB continues to be cautious as disinflation progress seemed to be stalling, holding rates unchanged during recent July meeting but kept the 'door open' for a September cut amidst downside risks. In the United Kingdom ("UK"), the Bank of England ("BoE") took its first rate cut decision since 2020 but the tight voting of 5-4 denoting a more measured rate cut cycle compared to other central banks. This is appropriate in our view, as looking past headline inflation, certain components of inflation such as services remain too hot.

We anticipate continued support for growth from domestic demand and recovery in the external trade for the rest of CY2024. The possible statutory minimum wage revision, civil servants' wage review, EPF's Flexible (Account 3) withdrawals, progressive wage model and continued subsidies for lower-income household groups will help support domestic consumption. Furthermore, tourism and related sectors are improving. Market indicators suggest that the semiconductor industry reached its low point at the end of the first half of CY2023 and has since embarked on a path to recovery, offering positive prospects for CY2024.

Thanks to the surprisingly good print in second quarter of CY2024 which saw Malaysia's economy surged to 5.9% YoY (first quarter of CY2024: 4.2% YoY), we believe this year's growth will hover closer to 5.0%, falling at the upper official range of 4.0% to 5.0%. However, it's important to note that this forecast is subject to potential risks, such as global economic conditions and geopolitical tensions, which could affect the recovery of the semiconductor industry and the overall Gross Domestic Products ("GDP") growth.

For the banking sector, the outstanding loans grew by 6.4%YoY in June 2024, the highest growth since 2022. Interestingly, both the household and non-household segment loans expanded by 6.4% YoY. We anticipate loans growth to be in the range of 5.0% to 6.0% in lieu of promising GDP growth for the year. The overall banking system remains highly liquid. This is reflected by the LCR of 155.2% in June 2024. The funding profile remains well-diversified, with June 2024's loan-to-fund ratio and loan-to-fund-and-equity ratio at 82.8% and 72.1%, respectively.

We believe the Overnight Policy Rate ("OPR") will be maintained at its current rate of 3.0% throughout CY2024. However, the rollout of subsidy rationalisation and wage growth may add some inflationary pressure in the second half of the year and beyond. However, our baseline view suggests that the OPR could go up in first quarter of CY2025 when the growth momentum is at the full speed. We are not discounting an earlier hike should the current momentum persists into second half of CY2024.

The Group began its FY2025 with a strong Q1FY2025 with solid PATMI on the back of improved NIM and lower provisions. At the same time, the Group kept CTI flat and achieved a ROA of above 1%. The Group's financial performance in Q1FY2025 is in line with the financial goals in the Group Chief Executive Officer's newly unveiled 5-year plan, dubbed "Winning Together", to propel the Group into its next growth phase. Having observed the positive economic momentum across all sectors in CY2024 so far, the Group remains optimistic on its FY2025 prospects.

B3. PROSPECTS FOR THE NEXT FINANCIAL YEAR END (CONT'D.)

Moving forward, the Group's strategic focus will be on driving its SME and Mid Corp segments to lead lending growth, building out its wealth management offerings and developing efficient supply chain solutions for customers. The Group will continue to invest in technology, in line with its digitalisation agenda, to achieve operational excellence through improved process efficiency and the development of productivity tools. To future-proof its workforce, the Group will strengthen its talent pool by acquiring and developing new skills and capabilities as required. Sustainability continues to be at the forefront of our key priorities as our legitimacy to operate and to reinforce our franchise.

Simultaneously, the Group commits to maintaining healthy liquidity levels and the continuous strengthening of capital base while closely monitoring asset quality to mitigate balance sheet related risks.

B4. VARIANCE FROM PROFIT FORECAST AND SHORTFALL FROM PROFIT GUARANTEE

This is not applicable to the Group.

The total tax charge of the Group for the financial period ended 30 June 2024 and 30 June 2023 reflects an effective tax rate which is lower than the statutory tax rate mainly due to income not subject to tax and expenses not deductible.
