AmInvestment Bank Group Wins Asian Banker IT Implementation Award

AmInvestment Bank Group and N2N Connect won the "Best Multi-Channel Capability Project Award 2007" in The Asian Banker IT Implementation Awards 2007 for an online trading and investment system for retail and institutional clients through internet and mobile devices.

The awards ceremony was held in Hanoi, Vietnam on 17 March 2008 in conjunction with The Asian Banker Summit, the largest annual gathering of professionals in the financial services industry in the Asia Pacific region.

The new system, which was implemented in 2007, allows AmInvestment Bank Group to centralise all risk profiles, historical data files, and client data for various broking instruments. It has been able to reduce its cost per online transaction by more than 25 percent, and market share for trade value and trade volume has increased from 4.6 percent and 5.3 percent in 2005 to 8.0 percent and 6.2 percent in 2007.

The Asian Banker IT Implementation Awards was inaugurated in 2006 to identify emerging best practices in the use of IT in the financial services industry and benchmarks that senior operations and technology heads can use in their projects.
